Customer Reviews

My son is a huge Zelda fan and has been taking piano lessons for a short time. He needed to come up with a song for his first piano recital and we found this music. It was a little advanced for him, but with practice, he was able to play the opening Zelda theme for one of his selections at his recital and he played it perfectly. He loves all the songs and I'm sure will use this music for some time!

Lots of great songs. I have no complaints about the selection of the songs. I've been playing for six months and most of these songs are within my ability range but there are some that are challenging. I would recommend this to anyone who has been playing for six months to one year. If you've been playing longer, you might want to pick up the regular version.

Got this for my wife. she was taking a beginner piano class in college. By the end of 1 semester (4 months) she could play a few songs pretty well out of this. Such a fun book with great music!

Great book to motivate kids with piano lessons! They love playing the music from their favorite video

game and it is great that the music is simplified to their level! Good product!

Our piano teacher was highly impressed with the sophistication and arrangements of these pieces. My 10 year old is really enjoying learning from this book and is eager to practice now.

My fiancé loves the Legend of Zelda series and was thrilled as I tried my best to surprise him with a Zelda tune. The music reads easily and any level of pianist can get the hang of these songs within a couple practices.

Great transposition! I have all of the piano books. They have great sheet music. Although they aren't EASY piano, this has my favorite songs.

I got this for my piano lessons and I love it and it is challenging enough for me to learn but not too hard where I can't learn it at all! It is right at my level and I love that!
