Fibonacci Fun: Fascinating Activities with Intriguing Numbers

Synopsis

From "Raising Rabbits" to "Prickly Pinecones" 24 easy-to-use, reproducible activities and projects introduce students to Fibonacci numbers and the golden ratio. Extensions allow the class to explore topics in depth or plan special events around Fibonacci numbers. Topics include geometry, statistics, networks, coordinate graphing, calculators, sequences, number bases, problem solving, and patterns.

Shipping Weight: 7.2 ounces (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars 7 customer reviews

Best Sellers Rank: #283,831 in Books (See Top 100 in Books) #71 in Books > Science & Math > Mathematics > Pure Mathematics > Number Theory #940 in Books > Children's Books > Education & Reference > Math #24614 in Books > Education & Teaching

Age Range: 10 - 17 years

Grade Level: 5 - 3

Customer Reviews

Good resource for teachers or gifts for children.

Bought this for homeschooling my granddaughters aged 5 & 8 but ended up not using it, as the exercises seem more geared to older children capable of reading and working on their own. Looks as if it might be useful later, however.

Great idea book for class room fun!

Great book with activities that will connect arts and math.

Probably too advanced for my 8 year old grandson. but we can get something from it.

Gift for my daughter, an elementary school science teacher.

Wow! What a fun way to motivate kids about math and problem solving! I teach gifted and talented elementary school kids and they LOVE these problems. Started them out with the "bee family tree" and they were begging for more. This will be a staple in my classroom from now on!
