Mike Wells has been walking long-distance footpaths for 25 years, and a keen cyclist for 20. He has walked the major British paths, the GR5 from Lake Geneva to the Mediterranean, and explored the Dolomites Alta Via routes in Italy. He has also walked in Poland, Slovakia, Slovenia, Norway and Chilean Patagonia. Starting with UK cycling routes, he soon moved on to long-distance routes in the rest of Europe and beyond, including a circumnavigation of Iceland and a ride across Cuba.

Very good guidance with this as our only book/map for the entire route. Having more detailed maps always a good idea, but the cost and hassle is real. With a happy attitude and patience, and kindness, one can readily get directions to supplement the book from locals. Camping sites are usually readily available, but sometimes campgrounds are not convenient, or are closed, but flexibility on any long tour is necessary.

Excellent English guide with great detail that some will live some will hate. When you are finding it

difficult to follow the route this guide will be invaluable. While bike line series have great maps all the detail is in this book

a dream...

detailed, specific, well written, reliable and comprehensive
