Customer Reviews

Perfect for your teen, paperback book with easy illustrations for the beginner.

I've never felt so ripped off by a book before. I know it was an inexpensive book, but still. They could have easily fit all of its content on about 20 pages. There is one small picture per page with all of this white space around it. They don't even number the pages.

not enough pages or detail. But great for kids or beginners!

Granddaughters (9 and 12) are into Anime...this is a great book. Easy to follow instructions.

Perfect for the price. No words, just some pictorial guidelines, but good for a basic idea if youre new to the anime/manga world. I received it on December 19th, and on the last page is the print date of the book. December 16th! Made to order, I found that pretty cool

bought as a gift for my niece who's an avid sketcher. it looks easy enough for a grown up to follow

Wonderful How-To book loaded with great large pictures of anime characters and how to draw each part step by step instructions leading into how to make a scene yourself. Beautiful illustrations within book and very well done by creators in making it from easy to difficult as children want to challenge themselves

This was a gift for a 9 year old girl. She loves working on the book.
