## Customer Reviews

Great tips on using airbnb to build a 6 figure business. Everything from insurance, to pricing, to greeting guests is covered. If you are looking to master this platform, I would highly recommend this book.

Helpful for the novice host/hostesses. A Primer Airbnb guidebook needs to be written by an enterprising, step by step author. Fill in the blanks vs intuitive.

The book not only explains the details of renting a room for a short stay using the website and getting reservations but also gives information about how you prepare your own house to maximize profits. The book is an excellent resource for increasing your income generating capacity of a property. This is highly helpful and informative book for anyone wishing to use Airbnb as a Pro. This is an excellent guide and I recommend it.

I really don't have any idea about Airbnb money before getting this book, after seen this book title I purchased this book but I was little confuse what kind of income this is. And after read the entire book I just love the book really too good book, I get many information from this book, overall this book is very good.

I have not thought of making money from airbnb business before. After reading this book, its has open up a new viable opportunity to me on how to go about doing it. Information in the book are practical and easy to understand and apply. I will definitely recommend this book to anyone starting out on airbnb business.

I'm always interested in new ways to make a little bit of extra money on the side and this short book on Airbnb gave me some good ideas. It has some really good tips on how to set up your Airbnb to attract guests, and how to minimize costs in running Airbnb rooms as a business. It's a great book that I would recommend to any entrepreneurs.

One of the best books that explains airbnb business well. The book explains how you can put your house or apartment for rent and make money easily from it. Well written and easy to follow. Very useful. Recommended.

Very poorly written and edited. No segues between topics. It's pretty much a flight of ideas. There are some pearls in the text.
