Customer Reviews

I couldn't preview the book so I was originally skeptical but I bought it because it was cheap. It lacks chords unlike a lot of the Irish music books I've bought, but it has a nice selection of tunes I haven't really heard of but which sound nice. It lacks pretty much any ornamentation which I actually like. The music is printed very clearly and is very easy to read.

So many common and useful tunes! For fiddle players, there are no bowing markings, however, so for authentic bowing techniques, you must supplement that yourself.

Not played through all the tunes yet but it looks to be a good tune book.

The music a little too simple for me, definitely a beginners book. Prompt shipping and book in good condition.

Nice Irish music. The music has none of the ornamentation, which kinda sucks, but otherwise the music is good if printed very large. Haven't tried the CD yet.
