I usually don't get through books about manifestation & self awareness because they can be so dry & mumbly humbly. This was entertaining yet educational to absorb the information in a practical way.

One of the issues with modern religion is the barrier it presents between the individual and deity. You need special mediators (aka priests, ministers, shamans, etc.) to communicate with what is essentially your deepest nature. I appreciate the women-centric approach, since modern religions, including some types of Buddhist practice, exclude women from this "inner circle" of authorized representatives of Spirit. the book encourages you to take responsibility for your spiritual life and your relationship with the reality that surrounds you. Spirit is always listening.

I absolutely love this book! I refer to "God" as her & have been searching for a feminine energy higher power to read about. The Goddess book, is for me the closest I have come to my core knowings. Sonja uses some of my very same language, probably because we love some of the same spiritual teachers. I bought a second copy of this book for a soul sister. I highly recommend this book!!! I will be buying more copies as gifts!!!

I really enjoyed the book, it was simple to connect with a very enjoyable and easy read. I recommend this book to everyone who wants to know more about the Goddess within all of us.

What a great read it was a joy to read and I smiled as I read this book. Its easy to read and understand and you can feel the happy excited energy of the author as you read. I will definitely begin practicing bringing in he goddess. Thank you Sonja .

I was looking for a source of connection with Divine Feminine energy. This is it. It's positive and empowering.

A great read for the pagan in you.

This book is absolutely amazing! It has given me such a great new perspective on how I think and approach many things. I will be sharing this book with my the other goddesses around me!
