## Customer Reviews

Explore the world through accurate and up-to-date mapping.

I've been reading about Ireland--its history, landscape, and people--but hard to visualize with out a detailed map of the place. This map works for people actually on the road but also for armchair travelers who just want to figure out where the place is and how it related to the rest of the island. Sturdy so it can stand up to heavy use. I'm finding it fascinating to look at place names and recall references from fiction and non-fiction. I should have ordered this long ago!

This is a great planning map, as it has symbols for castles, monuments, churches, abbeys and other places of interest. It was a great resource during my recent visit to Ireland, too.

Exactly what I was looking for - a map that was big enough for me to see a lot of detail, but not so

big and bulky that I wouldn't take it with me.

Very detailed map, very helpful on our 10 day trip. We couldn't have enjoyed our Ireland trip without it. Very durable. We used it every day.

Excellent transaction, appears to be great map but won't know for sure until our trip late September. Very clear markings, delivered promptly and as described.

It was a little larger than I was expecting and have found a few places that were not shown on the map. We're just using it for touring along with a road atlas so I think we'll be fine. All part of the adventure.

This map is BIG, but can be folded up so you're viewing only the area you need. Lots of detail, and road segments show both mileage and kilometers, which I liked. Was just what I needed to help plan our trip.

Good map, but tears easily.
