The Complete Book Of American Muscle Supercars: Yenko, Shelby, Baldwin Motion, Grand Spaulding, And More

Synopsis

Uncover the captivating history of the highest-performance cars in America, illustrated with beautiful photography. The American muscle car began not in the factories of the big three automakers, but in the garages and dealerships of a hot-rod subculture bent on making the hottest, highest-performance cars on the street. The Complete Book of American Muscle Supercars catalogs these amazing cars, along with the builders who unleashed them on the American scene. From Michigan's Royal Pontiac dealership and the souped-up Royal Pontiac Bobcats they built and sold, to the new cars from such fabled names as Carroll Shelby, Mr. Norm's Grand Spaulding Dodge, Nickey Chevrolet, Don Yenko, George Hurst, Baldwin-Motion, Calloway, SLP, and Steve Saleen. This gorgeously illustrated book chronicles the outstanding contribution of the tuner/builder to American automotive history through the amazing machines they created. From the oldest of these muscle tuners commanding top dollar at today's classic-car auctions, to the latest vehicles by Ford and Chrysler, with their SVT and SRT divisions, this book gives readers a full and fascinating look at American high-performance in its purest form.

Book Information

Hardcover: 224 pages

Publisher: Motorbooks (October 17, 2016)

Customer Reviews

"Who knows, maybe this book could cure your Ferrari fetish once and for all." - Maxim "The book is wonderfully illustrated, giving true justice to this memorable slice of American automotive history."

- Automoblog.com

Since 1983, Tom Glatch has contributed hundreds of stories and photographs to major collector,

Corvette, Mustang, muscle car, and Mopar magazines. Tom grew up during the muscle car era, and his first car was a very quick 1970 Plymouth Duster 340. Tom and his wife Kelly have contributed photographs to books by other Motorbooks authors, as well as Motorbooks' Corvette calendars. When not pursuing old muscle cars, Tom works for a Fortune 500 corporation as a data and systems analyst and developer. He lives in southeastern Wisconsin with his wife and two children, daughter Keara and son Sean. David Newhardt is one of the best automobile photographers working today and has provided photography for best-selling Motorbooks titles Muscle: America's Legendary Performance Cars, Corvette: Fifty Years, Mustang: Forty Years, Mopar Muscle: Fifty Years, and Shelby Mustang: Racer for the Street.

Pitifully thin on both historical/chronological content & photos. Much more than this expensive book offers to see/learn/enjoy can be quickly found on these cars on Google or Facebook. This is a not a "keeper" book. You have been warned. Very disappointing.

pleased with purchase

The Complete Book Of American Muscle Supercars: Yenko, Shelby, Baldwin Motion, Grand Spaulding, and More (2016), 224 Pages, Hardcover, not to be confused with the other great Motorbooks book by David Newhardt: American Muscle Supercars: Ultimate Street Performance from Shelby, Baldwin-Motion, Mr. Norm and Other Legendary Tuners Hardcover, 192 Pages, ISBN-10: 0760332940, 2008 which I also own. This book includes not just new material on the glory days of muscle cars but also awesome tuners such as Callaway and his Corvettes, PAS INC aka Performance Automotive Services inc, SLP and more. I love the book and it includes Corvettes, Corvette Z06 and C7.R. I like the way it is written and laid out. Also the book is a hardcover and comes without a dustjacket but what's really neat is the Camaro and Mustang on the cover feature pop-up hoods to reveal the engine which I found pretty neat. No matter if you're a GM, Ford or Chrysler guy or just a gearhead, your muscle car old or new is in here. I highly recommend it!

nice book of regurgitated pics and information, would have liked to see more of the dealers involved from Ford and Chrysler. missed so many was sad to recommend to a friend. Nothing on Twister or other special cars and nothing on dealer sold hot cars like the Beasley Ford Torinos. the biggest let down was no info on dealer drag programs like Lincoln Mercury into the 70's. it didn't just end in 69,

so why not go into the programs and literature of how insurance, Safety, Oil prices and NHRA changed the Musclecar to what we have today. in other words they still made cars through the 70's and 80's 90's 2000 and so on.

This book is not (Complete) it is missing a load of other great super car buildersDon't get me wrong this book is a great bookIt has some great pics and info on these cars. More than half have been seen before in other booksThis book gets 3 stars because they left outSome of the best in the business

expected more time line of vehicles

I have to be honest I have not gone past the Royal Pontiac section near the front. I am bias because my black 1968 Firebird graces two pages near the beginning. While the Jim Wangers Judge on the following pages I took care of for over 17 years while it was here in Detroit. The shadow in the Judge as it sits under the Woodward turn a round sign is me. Dave Newhardt takes some great pictures.I do like the cleaver cover with the hoods of both the Camaro and Shelby Mustang being able to peck under the hoods. Just have to be careful not to catch either hood when taking the book off the shelve on putting it back on the shelve.

A wonderful, well written book on the subject providing a captivating mix of technical details, insider trivia and background stories - impossible to put down! The author displays a deep knowledge and passion for American supercars, providing a riveting cross section from classic cars to modern trucks - all illustrated by artful high quality photographs. This book makes a great addition for your enthusiast library or your man cave alike.
