Age Range: 7 - 10 years

Grade Level: 2 - 5

Customer Reviews

My grandson is loving the Batman Lego Movie. So getting this book was an easy choice. Between the subject and that it is made by Scholastic and it coming with a great Batman Lego minifigure, we bought it for him right away. The book is set up in comic book style and has a story and activities, too. The artwork is drawn rather than photos of actual Lego pieces. The book is a fun read and the activities are interspersed to add to the overall play time. The minifigure is Batman in a brown cowl and cape wearing a kilt and carrying a sword. It is one that he doesn't have from the kits or minifigure sets, so it was a fun add-on to his collection.

What a great price! We saved \$4 from Scholastic school book fair. Great book come with the Lego

character & it's an interactive reading book with coded words to figure out as they read along. My son is in 3rd grade and loves it!

Added this to my son's easter basket and he loved it. The activity book itself didn't last long (he completed it quickly) but he still enjoys reading through it. And the minifig is a great bonus. I don't think you can get Tartan Batman anywhere else so it's a nice addition to the collection.

My 5 yo loved this book. The first one was such a big hit, I got a second for traveling, it entertained him for quite a while and he finished the book in its entirety. A couple of days later he wanted to go through it

Great book. My son loves the Lego figurine and the book, he reads it over and over.

The book is good and my son loved the character to go with it

Loved it. Arrived as expected and my daughter had so much fun with this! Can't beat the price anywhere and so convenient!!

perfect book for a lego batman loving son.
