The Law Of One, Book Three : By Ra An Humble Messenger (Bk. 3)

Synopsis

Book Three of the Law of One builds on the information presented in Books One and Two, continuing the exploration of the nature and balancing of the energy centers or chakras, sexual energy transfers, healing, reincarnation, meditation, and Wanderers. The nature of psychic prophecy is explored in Book Three, as are the nature and ramifications of what are usually called psychic attacks. A good deal of information is given on the principles of ritual magic in general and white magic in particular, and a beginning is made in the study of the archetypical mind, which is the mind of the Logos and serves as a kind of blueprint for our evolutionary process and which serves as the foundation concept for each of our individual minds.

Don Elkins was born in Louisville, Kentucky in 1930. He held four university degrees, and was a professor of physics and engineering at the University of Louisville and head of the University of Alaska's mechanical engineering department. He served with distinction as the youngest Master-Sergeant in the history of the U.S. Army during the Korean War. In 1965 he left his position as a tenured professor in order to give himself more time for the UFO and paranormal research that he had pursued all of his adult life, and became a Boeing 727 captain for a major airline until his death in 1984.

I read all of the 5 Ra books and they are the most influential books I have ever read, packed with mind-boggling information and answering so many questions I've ever had. They were really

mind-opening and expanding, and made me pause and think a lot of things in this life and beyond. I feel I've become a better person because of these books, and I am forever grateful for finding these books. They are very difficult to read, due to Ra's antiquated language in channeling (I loved when they said "betwixt") and the intensity of the information, so I had to read them 3 times. Although they are very intense to read, once I started to get a hang of it, I could not stop. Each additional time I read, more meaning comes out that I had not caught before, so I can literally keep reading these books forever. Each volume covers different subjects, so if someone were to pick up and read only one volume, they will have a different perception of what these books contain. Unlike many other channels that sound superior and condescending, Ra (the social memory complex) is very humble, respectful of us, and try not to indulge us with superficial information for the fun of it or future information that we are in the process of making, in trying not to interfere with our free will. Yet, Ra was able to answer so many sharply intelligent questions with very specific and substantial answers.

Really mind blowing book. Will alter your perception of reality. Very well written, lots of deep information that takes a while to digest and assimilate. Not an afternoons easy read, more like a PHD course in reality. I am working my way through the series and am finding it all fascinating!

This is good for home library.

great

If you are as I am, a seeker of the love and the light of The One Infinite Creator, if you are Israel (a seeker of God) desiring inner guidance and a clearer understanding of both the purpose of incarnation and a clearer awareness of your self in relation to other-selves then this series is for you. The awakening of spirit within each individual, the spirit of service creator in all it's multitudinal faces, has never been a more pressing more important goal to be attained than it is at this point in our cycle of evolution of consciousness. Truth, pure and white, resonates with the true seeker; there is great truth and understanding in the pages of this book as well as the others of it's series. My deepest gratitude to all those who labored and suffered to give this knowledge to the modern world. Remember: Meditation is the door; Silence is the key. I wish you well on your path.

RA TEACHES US WHAT WE SHOULD BE DOING TO ELEVATE OUR LOVE AND AWARENESS

OF THE TRUE NATURE OF OURSELVES AND THE UNIVERSE AND THE LIES WE HAVE BEEN
FED ALL OUR LIVES.

GREAT

I loved the whole series
