By all means get . . . Doan's 50 Hikes books, if only for the pleasure of reading them. -- Appalachia AMC magazine

Daniel Doan was "one of the grand old men of the mountains," according to the Green Mountain Club News. He hiked the White Mountains for nearly 70 years, until his death in 1993. His many books include 50 Hikes in the White Mountains. His daughter Ruth Doan MacDougall, who for years helped him keep 50 More Hikes in New Hampshire up-to-date, assumes the book's authorship with this fourth edition. With ten published novels to her credit, MacDougall grew up steeped in her father's twin passions for the woods and the written word.

ok

New Hampshire is a great state to hike hidden places.

Great hikes!

Lots of info on what would normally be hard to find trails. A must have for any avid NH hiker!

I have over a dozen books on hiking in New Hampshire (my favorite state and place to climb) but this has to be one of the few that really gets detailed on the trail's good points and bad ones and what to watch for. The trails are varied, some long and more of 'getting there' attitude and some short but very scenic. The authors really let you know about spots to stop at and why and other neat things to watch for. I have done at least 12 of the 50 and plan on all if I am able in this short life, lol. No complaints about the descriptions. Also very pleased with the accurate info on parking and directions to the trailhead, which is confusing in some other books. This is the second book to the 50 Hikes series for New Hampshire, both are unbelievable and invaluable in their information. This one takes us from Barrett Mountain in Southern NH (which by the way is impossible to find informative hiking information on) through the Whites and even one in the Far North. There are quite a few essential 4,000 footers in here, so don't miss out! Tracy Talley~@

I found this book to be extremely helpful. It makes planning a hiking agenda easy. Great maps and detailed overviews. This book gives you the confidence to allow you to explore more of New Hampshire. No matter which trail you decide to take on...you will know what to expect. Even gives guides to "rainy day" hikes. The only drawback is that you will want to pack it with you!
