I like to read her books, but after I read them, I don't always remember them. Doesn't mean I didn't

like what I read. Just that I don't remember all of them until I start to read them again.

Great book can't wait to start reading another of the books in this series. Thank your for your talent and the pride you take in your delving into the history of your books.

Nice story but incomplete ... some kind of a Serial? I do not appreciate being cheated. Why do you do This? You should be ashamed

A great book to read and enjoy historical western romance,the sister in a family were left a Ranch providing they married within six months from his death. After getting there with the lawyer and neighbors one sister was married leaving the others. Events were taking place that put them to a test. A must read for those who enjoy a special price from kindle and a duo of authors who keep me wondering what next for the characters.
