Shipping Weight: 10.6 ounces (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 35 customer reviews

Best Sellers Rank: #22,886 in Books (See Top 100 in Books) #44 in Books > Textbooks > Medicine & Health Sciences > Medicine > General #264 in Books > Medical Books > Allied Health Professions #264 in Books > Textbooks > Medicine & Health Sciences > Allied Health Services

Customer Reviews

Ann Ehrlich is an experienced teacher, professional author, and lifelong student. Considered one of the leading experts in the field of medical terminology since 1988, she has written numerous books on such health topics as dental assisting, practice management, speech therapy and lymphedema. Carol L. Schroeder has been working for more than 15 years to find innovative ways to present medical terminology at a level appropriate for this text's students. Her background in technical writing, translating, and research is invaluable in continuously updating the content and in creating innovative activities and approaches--such as the Simplified Syllabus and Human Touch stories--to enable instructors to present engaging courses that help all students succeed. Laura Ehrlich, a Registered Nurse in the emergency department at Kaiser's South San Francisco Medical Center, enjoys the fast-paced, challenging environment of the emergency department as well as the knowledge that her skills save lives. She excels at explaining medical terminology to patients and training other nurses on new procedures and technology. Previously, she helped develop and present employee training for the Nursing Education Council at San Leandro Hospital. Katrina A. Schroeder is a Registered Dietitian who trained and works at Boston Children's Hospital, a Harvard

Teaching Hospital. After finishing her dietetic internship at Simmons College, she completed the prestigious LEAH (Leadership Education in Adolescent Health) Fellowship in the adolescent department at Boston Children's Hospital. Currently she is a clinical dietitian in the adolescent clinic there, specializing in the nutritional care of teenagers with eating disorders, obesity, and polycystic ovarian syndrome (PCOS). Katrina also writes guides and blogs for the Center for Young Women's Health and runs a small private practice in Brookline, Mass.

This book comes with a few notecards in the back section (which the description didn't state as far as I could tell). I think if I had written it I would have organized it a bit differently, such as starting with common suffixes and prefixes as opposed to how it sort of throws a bunch of randomness at you in the first chapter. After that there is a much better pattern and structure. Great for anyone in or getting into the healthcare fields.

This is a wonderful study book. I needed a refresher and this helped. I plan on taking my CPC exam soon and I feel confident that I will pass.

This is a very thin workbook and in my opinion not worth the money.

Student textbook, had information required to understand class and take tests....its a textbook....

My husband was simply going to rent this book. I purchased it for him instead. This has worked out beautifully as this book is rich in color and text, very easy to view, beautiful glossy pages.

Student work book, can't say great, can't say lousy, did it's job.

Ã Ã Ã'Ã•

The book was fairly new upon receipt, so there was no sign of significant wear and tear. There were no missing pages either. Using it for EMT certification so this textbook has been a big help. Thanks!
