Customer Reviews

10 out of 10 Stars! I found the questions in these books quite tricky, just like the ones on the boards are. I also found the distractors well-chosen. --Scott Hopkins, D.C., Book Reviewer from Dynamic Chiropractic Publication

Dr. Patrick Leonardi has written over 60 study guides since 1995. His study guides have helped thousands of students achieve better grades in less time and effort. The author has a talent for focusing on the similar key questions that are asked on exams.

This is one of the books I used for boards and passed the first time! I highly recommend getting this study guide.

The questions on the subject areas on physiology, spinal anatomy, microbiology, general anatomy, chemistry, etc. were on target. I would definitely recommend this book because it showed me how the boards were asking questions. In addition, I feel if I didn't study this book, I would have not been

as prepared for taking the boards. It goes to show, I passed the first time taking the Part I boards. Definite must-buy.
