National Geographic Backyard Guide To The Birds Of North America (National Geographic Backyard Guides)

Synopsis

Essential for the estimated 62 million Americans who watch and feed birds in their backyardsâ "from the experts at National Geographic and co-author of the popular and perennial best sellerâ Field Guide to the Birds of North America.â No matter where you liveâ "in the country, city, a high-rise or houseâ "this handy guide will quench your curiosity about the feathered creatures in your midst. It features 150 of the most common and interesting birds likely to be observed at backyard feeders, nesting nearby or just migrating through. An indispensable visual index of all 150 species appears on the inside front and back laminated covers, making identification a snap.â Beginning with Backyard Basics, an easy-to-follow, richly illustrated presentation on observing and identifying birdsâ "with tips on attracting and feeding your favorite birds, birdhouses, and bird-friendly landscapes to entice nestingâ "the book is full of National Geographicâ ™s iconic field guide images and maps.â Core species on everyoneâ ™s listâ "such as robins, woodpeckers, bluebirds and chickadeesâ "are featured in two-page spreads including practical tips with additional imagery. Sidebars captivate with interesting and little known facts.

JONATHAN ALDERFER is a nationally known bird artist and author who has worked on a number of National Geographic's birding books. His previous titles for National Geographic include *Field Guide to the Birds of North America*, *Field Guide to the Birds of Eastern North America*, *Field Guide to the Birds of Western North America*, *Illustrated Birds*, *Birding Essentials*, and *Complete Birds of North America*. PAUL HESS, former chair of the Pennsylvania Ornithological Records Committee, is department editor for the "News and Notes" column in *Birding* magazine. A retired newspaper editor, he writes an "Ornithological Literature Notes" column for the Pennsylvania Society for Ornithology newsletter and has written many articles in the journal of *Pennsylvania Birds*.

Just the kind of introductory book I was seeking. The descriptions, photos, and maps are helpful to this new birder! (And, it's Nat Geo!).

This is a great book - so easy to find the bird you are looking for. We have it on our porch so it is easy to reach for at just the right opportunity.

very informative, easy to read, bright illustrations and pictures, a real help in birdwatching

Easy to use. I now keep my binoculars handy.

Nice gift for a family member learning about the area birds.

Good book with lots of pictures.

great book thank you...

National Geographic comes out with the best books; especially for kids. My 10 year old son wanted this for his bday, so I bought it for him. He uses it as a resource more than something he reads daily.
