The Historical Reliability Of The Gospels

Synopsis

For over twenty years, Craig Blomberg's *The Historical Reliability of the Gospels* has provided a useful antidote to many of the toxic effects of skeptical criticism of the Gospels. Offering a calm, balanced overview of the history of Gospel criticism, especially that of the late twentieth century, Blomberg introduces readers to the methods employed by New Testament scholars and shows both the values and limits of those methods. He then delves more deeply into the question of miracles, Synoptic discrepancies and the differences between the Synoptics and John. After an assessment of noncanonical Jesus tradition, he addresses issues of historical method directly. This new edition has been thoroughly updated in light of new developments with numerous additions to the footnotes and two added appendixes. Readers will find that over the past twenty years, the case for the historical trustworthiness of the Gospels has grown vastly stronger.

Book Information

Paperback: 416 pages

Publisher: IVP Academic; 02 edition (November 18, 2007)

Language: English

ISBN-10: 9780830828074

Customer Reviews

"This volume offers the most complete, accurate and up-to-date defense of a maximalist approach to the Jesus tradition." (Thomas E. Phillips, *Religious Studies Review*, September 2008) "If you want an up-to-date, clear and compelling presentation of the evidence for the historical accuracy of the Gospels, this is the book for you!" (Gregory Goswell, *New Life*, March 6, 2008) "I warmly recommend this book." (Pieter J. Lalleman, *Journal for the Study of the New Testament*, 31.5, 2009) "This new edition provides further interaction with the larger field of scholarship of the past twenty years."

Designed for both the informed layperson and theological student/scholar, Historical Reliability sets forth arguments for the gospels as historically sound sources. For the general readership, the central argument is set forth in an engaging and accessible manner. For those more interested in particular issues covered by Blomberg, the footnotes provide access to the context of the discussion. Although not everyone will agree with his conclusions, Blomberg sets forth a compelling case worthy of consideration. For scholar, theological student, and layperson alike, Historical Reliability is a valuable text." (Michael Naylor, The Expository Times, March 2009)

Craig L. Blomberg (Ph.D., Aberdeen) is Distinguished Professor of New Testament at Denver Seminary in Denver, Colorado. His books include Interpreting the Parables, Neither Poverty nor Riches, Jesus and the Gospels: An Introduction and Survey, The Historical Reliability of John's Gospel, commentaries on Matthew and 1 Corinthians, Making Sense of the New Testament: 3 Crucial Questions and Preaching the Parables.

This is a perfect asset for research in search of the truth and further understanding the Gospels in composition and chronology. Dr. Blomberg took on a monumental task when he created this factual and formidable humongous task when he created this book for studying and writing or preaching the Gospels. Content is fair honesty, Seller is A+++. Book condition better than was described and shipping was lightening quick. Highly recommend this product and seller. God bless you and I thank you very much.

This was highly recommended and I bought as a gift for our son

Craig is excellent as always.

so far so good

Craig L. Blomberg is a famous NT scholar. He is very professional in his studies on the gospels. In this book (2nd edition) he has a purpose to show that four Gospels we have in our NT canon are historical reliable. He has very good points in proving this to his readers. First, he discusses traditional approaches to the reliability of the Gospels, second, he introduces newer methods in Gospel study and he explains how these methods can help us to see the historical reliability of the Gospels. Third, Craig Blomberg talks about miracles and encourages his readers to trust in Biblical

miracles. He has a good case in arguing that Gospel miracles are true. Fourth, the author solves so called contradictions of the Gospels. Fifth, Craig Blomberg argues about historical reliability of John's Gospel. He has a good arguments to prove that the fourth Gospel was written by John the apostle Jesus' beloved disciple. Craig Blomberg makes a good case against Richard Bauckham's proposal that the fourth Gospel was written not by apostle John. Craig Blomberg is more convincing than Richard Bauckham. Sixth, the author discusses the Jesus' tradition outside the Gospels. This chapter is very helpful. Then he explains the genre of the Gospels. If you are interested in historical reliability of the Gospels buy this book. It is a magisterial work by trusted NT scholar. Also in the end of this book you will find a long list of bibliography of 56 pages! Read and enjoy.

very helpful, and I am able to share with my bible study group.

If you are looking for an in depth view of the history of the Gospels of the Bible then this book is for you. It is a bit of a hard read so be prepared to have a dictionary handy. Other than that I loved the book!

I thought this was an excellent. The scholarship is impeccable. I highly recommend it to anyone who is serious about biblical scholarship.
