The Making Of Modern Africa (Africa: Progress & Problems)

Synopsis

Africa is a complex and diverse continent, and its more than 50 countries provide a study in contrasts: democracy and despotism, immense wealth and crushing poverty, modernism and traditionalism, peaceful communities and raging civil wars. The books in this series take a close look at many of the major issues in Africa today, such as AIDS, poverty, government corruption, ethnic and religious tension, educational opportunities, and overcrowding. --This text refers to an alternate Library Binding edition.
