Immigration, Ethnicity, And National Identity In Brazil, 1808 To The Present (New Approaches To The Americas)

Synopsis

Immigration, Ethnicity, and National Identity in Brazil, 1808 to the Present examines the immigration to Brazil of millions of Europeans, Asians, and Middle Easterners beginning in the nineteenth century. Jeffrey Lesser analyzes how these newcomers and their descendents adapted to their new country and how national identity was formed as they became Brazilians along with their children and grandchildren. Lesser argues that immigration cannot be divorced from broader patterns of Brazilian race relations, as most immigrants settled in the decades surrounding the final abolition of slavery in 1888 and their experiences were deeply conditioned by ideas of race and ethnicity formed long before their arrival. This broad exploration of the relationships between immigration, ethnicity, and nation allows for analysis of one of the most vexing areas of Brazilian study: identity.

"This book is accessible enough for the general reader, though the best use will be in an undergraduate course on Brazilian history or a course on race and ethnicity in Brazil or Latin America more broadly." Colonial Latin American Historical Review

A beautifully written book about the relationship between immigration, ethnicity and national identity in Brazil by an astute observer of Brazilian history. The historical sweep of the book is impressive and its incorporation of the immigrant experience to the process of making brazilianess is insightful.

Great book that helped me a lot with my research project here in Fortaleza.

Got it on time, as promised.
