The Oxford-Duden Pictorial English Dictionary

Synopsis

There are certain kinds of information which can be conveyed more readily and clearly by pictures than by definitions and explanations alone: an illustration will help the reader to visualize the object denoted by the word and to form an impression of the way in which the objects function in their own technical field or in everyday life. Each double-page of the dictionary contains a list of the vocabulary of a subject together with the picture illustrating this vocabulary. This arrangement, and the presence of an alphabetical index, allows the book to be used in two ways: either as a key to the vocabulary of a subject, or as an alphabetical dictionary in which the reader is referred to the section, or sections, in which the word is illustrated. This second edition has been revised and updated to reflect the most up-to-date changes in technology, science and medicine, industry, and commerce and to offer even wider coverage of all major fields of reference, including the arts and entertainment, recreation and sport, flora and fauna and typical situations in domestic and everyday life. Over 1500 new items of vocabulary have been added relating to such diverse fields as photography, typesetting, personal computers, telecommunications and transport. The objects are organized thematically enabling the user to grasp the entire vocabulary relevant to a given situation or context.

Book Information

Paperback: 816 pages

Publisher: Oxford University Press; 2 edition (September 28, 1995)

Language: English

ISBN-10: 0198613113

ISBN-13: 978-0198613114

Product Dimensions: 7.8 x 1.5 x 5.1 inches

Shipping Weight: 1.8 pounds

Best Sellers Rank: #1,137,202 in Books (See Top 100 in Books) #45 in Books > Reference > Dictionaries & Thesauruses > Synonyms & Antonyms #850 in Books > Reference > Dictionaries & Thesauruses > English #1216 in Books > Textbooks > Reference > Dictionaries

Customer Reviews

"Definitely worthy of note...an indispensable item for anybody learning or working in the English language....The scope and level of detail provided in the annotated line drawings...is difficult to convey: there everything from baby care to space travel and from botany to heavy

engineering."--Peter Nixon, Language International

good

This is just what I needed. I had another illustrated dictionary but not as thorough. This is a great reference if you need to know the names to parts of things. I love it!

Even though this book is expensive, I think it is worth the money because it names everything I would ever want to know. I am a writer, so this is an invaluable tool for me. Thank you.

Recommended for any writer by Robert Olen Butler, and has already been very useful to me. For instance, I needed to know the name for the ribs in a ship, and got it instantly.

that this book is out of print. What a treasure! An invaluable resource for writers. I wonder if there is another one out there? I hope so. If not, get this while you can.

This doesn't live up to prior reviews in that it doesn't cover the territory adequately, but it is a good start.

Sugiero que, además de mostrar la portada de este tipo de Diccionarios, también se muestren fotografías de su contenido, con el objeto de ayudar al cliente a decidirse por él y, así, producir la venta con mayor certeza de satisfacer a dicho cliente.
