My daughter loves Chinchilla's and owns one; this book has helped her bond with her Chinchilla. We did our research on caring for it before getting her, but there were some things in there that were a little less known or talked about on the internet, and her chinchilla isn't exactly Miss love bug....more like caption chicken s#@! fluff butt, but even so now she lets us all pet her and when my daughter has her out in her room she will jump on her bed with her and likes jumping on her stomach while she's laying, so I would definitely recommend this for anyone interested in Chinchillas.

I wanted to find out more about having a chinchilla as a pet. This book told me all of what I needed to know!!!....I do not own a chinchilla due to this book. I did gave me useful info in deciding on getting one... I am very pet concious and realized it would really be too warm here for the little guy!

I never recieved my book they are crooks do not buy from them! I want my money back!!! :(

Good Book if you are think about getting a Chinchilla.

Not bad, but a little short for my taste.

I love this book. But was very sad that the pictures weren't in color.

I bought this book recently and was pleasantly surprised at the depth which it goes into. Very informative and useful. Would recommend!!
