Life saver of a book while in law school

This is normally a very helpful guide for understanding the Bluebook in simpler, easier to search terms. But unfortunately, it is full of mistakes. For example, in the chapter on signals, the book indicates that "See e.g.," is correct when it should in fact be "See, e.g.,"

This is a great book. Very informative, and the new book came in shrink wrap to prevent any damages. Came here incredibly fast, about three days shipping and no problems with it! Highly recommend!

It's ok. Not as informative as I was hoping. I purchased this in order to bone up on the use of the Blue Book. It didn't really help all that much. Since purchasing this book, I have found several others that were way more helpful and useful. Sorry, however some othre folks might find this a very valuable resource.

Not only is this book has a lot of mistakes, it represents a twisted version of BlueBook. I would not suggest purchasing this book. PURE WASTE OF MONEY.

New. Arrived on time.
