Wild Wastes: Eastern Expansion

Synopsis

[Spoiler for the faint hearted at the bottom of the blurb. Please read all the way through.]Before world war two could reach its conclusion, the world suffered what could only be defined as a cataclysm. Now, Yosemite city stands as the gateway between two worlds. The empire of humanity to the west, and the wild wastes to the east. Standing at the helm for Yosemite is Vince, a Ranger turned city state ruler. Supporting him in his endeavors is his inner circle. Vince has begun to maneuver through the intricacies of ruling. At the same time he must balance his expanding foundation and fend off external threats. Thankfully, every single citizen of Yosemite is united to the cause. To make their home, permanent. To dig out their place in the world and make a stand. Things are starting to spiral out of control. Almost as quickly as he can put it all back together something else falls apart. And with Yosemite rapidly rising into prominence, Vince finds that it really means just putting a bulls-eye on your back. Warning: This novel contains adult themes and moral ambiguities. The main character is written as a real person in an apocalypse, and will not make choices that line up with society and cultural norms. This story contains a harem and is an Adult Fantasy novel.

Customer Reviews

The Wild Wastes: Eastern Expansion delivers. I am a stickler for fun and a good dose of healthy laugh and I have to admit the banter express by the characters from book one until now can't help but put a smile on one's face. This is reading enjoyment with an open mind that reflects full adventures with tales of pure fantasy ...nothing short of a sweet fantasy romp. The pace is fast and characters, old and new, mesh with ease as if they were long lost relatives that finally reunite to serve the family. You can't help but love their escapades and their can do attitude as they meet expectations and delivers satisfactions. My unforeseen twist was the addition of the queen, who will certainly be a main character to reckon with, my only hope is that she follow Fes established rules or she and Fes will be bumping heads and as an Orc, Fes stands second to no one. The author has done it again by keeping my beloved characters alive and the family growth up swing, for all they have been through and hard work displayed five stars is not enough. If you loved an enjoyable fantasy with strong love unity then read this series and remember it's not real, it's just a fantasy

LOVED THE BOOK!!! I love a selfless hero, in a great story and having a harem is just a plus. I read the 1st book 'Wild Wastes' and waited for this one and I was not disappointed. After reading this one, I went back and read the 1st one. In fact, I read this on Kindle Unlimited, loved it, returned it and BOUGHT it so I have it to re-read anytime and planned on reading this one again.

I don't have much experience with Adult fantasy novels, but this series, I cannot seem to put down. The characters are well fleshed out, hilariously funny at times, and at no point did I feel sucked out of the story. There are few if any grammatical errors. I'm not much for writing a synopsis, but I think book 2 is every bit as good as book 1. I also like the world that has been built here. I purchased this book last night, and about twelve hours later I'm about halfway through. It's going to be a long wait for book three!

Great story that isn't overdone or cause for yawns in between times of action or introspection. Really enjoyed BofA books in this series

I'm not really Commitment guy, But this book was awesome. Just enough action and intrigue to keep the story fresh, plus plenty of "adult situations" Eagerly awaiting the next book!

The first Wild Wastes was an unexpected find as it was recommended as part of my superhero stint purchases, and I loved every bit of it. This book, on the other hand, had a lot of self hype put on it

due to being a sequel. I can say that my expectations of how much I'd enjoy this book fell short to how much I actually did. I burned through this book in about six hour as I could not put it down. The new group of characters that was introduced in this continuation were well written and while the plot hit the ground running, it was well paced. As this review is being written within 24 hours of release, there are some grammatical errors that weren't caught in the book, but the only reason they were caught was through happenstance since the story sucked me in immediately. I cannot wait for whatever comes next, for both the series and from the Author. It's a shame 5 stars is the max.

The erotica, while essential and excellently well formatted. pales in comparison to the depth of his characters and story writing. With most harem type books, I see authors falling into the same traps, wherein the characters lose personality as they grow in number. Fortunately that does not happen here, and I am more than please to see that. I would 1000% suggest this book for stupendously written action scenes, with none of the flowery glorifying language, but instead highlighting the brutal, short finality of it all. Well done sir, and book 3 cannot come soon enough.

The story is fantastic and definitely progressed in a way I didn't expect when I started this book. Good sexy bits, interesting new characters/love interest, and intriguing expansion of the world. And loved the references to Super Sale on Superheros thrown in. Can't wait for more to come and for more of the mystery to be exposed.
