Sudan & South Sudan 1:1,800,000 Travel Map, Waterproof, GPS-compatible REISE

Synopsis

Sudan & South Sudan 1:1,800,000 Travel Map, waterproof, GPS-compatible, REISE 2013 edition

This map is waterproof and tear-resistant, durable enough to survive time spent in the rucksack, pocket or on a restaurant table. It is double-sided to provide the best balance between a good scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in) with topographic and tourist information. Clear topographic base has altitude colouring with contours, spot heights, mountain passes and names of mountain ranges. Salt pans, swamps, seasonal rivers and lakes, oases, wells and hot springs are indicated. Road network includes seasonal local tracks, gives driving distances on main roads, and shows locations of fuel supplies and border crossings. Railway lines, local airfields and oil pipelines are also marked. Internal administrative boundaries are shown with names of the provinces. Within the three Darfur provinces the map indicates areas where destruction of local villages has been independently verified. National parks and protected areas are marked and symbols highlight various places of interest, including UNESCO world heritage sites, archaeological remains, mosques, medical facilities, etc. Campsites and locations with hotel accommodations are indicated. The map has a grid with latitude and longitude at intervals of 1° and 5', and an index of localities with a separate list of national parks. Map legend includes English. High quality German cartography.
