# Numerology The Complete Guide, Vol. 2: Advanced Personality Analysis And Reading The Past, Present And Future (A Newcastle Original)

## Synopsis

Numerology, the simplest of the occult sciences to master, offers deep insights into the personality. You can use numerology to understand yourself, friends, associates and lovers. You can see the dynamics of relationships and you can determine the best time to marry, change jobs, move, invest and travel. Some special features of Volume II: Advanced Personality Analysis and Reading the past, present and future are: ( Complete, sample advanced readings with step-by-step guidelines. ( Explanations of short-term and long-term time cycles and their relative importance. ( A complete special reference chart section--a unique, pre-assembled format which presents all the information you need quickly and easily, making memorization unnecessary. ( Progressed Readings with step-by-step guidelines. ( Illustrations of how to resolve the conflicts and ambiguities present in any Progressed Reading. ( A new simple graphic method for pinpointing dates and significant life changes.

## Customer Reviews

Having done numerology now for many years, I must agree with all previous reviewers. This 2 volume set is the clearest written, most thorough and complete guide to the subject of numerology. It is the book I most refer to when doing readings, and it covers all aspects of the subject. The only drawback the 2 books present to an aspiring numerologist is, paradoxically, its strength: being such a complete guide to the subject, there may a tendency to rotely follow the examples given, neglecting your own intuition when doing a reading. Of course, it is important to "read what the numbers say," but the overall tone of a reading must also come from a connection to source energy

through your own intuition. But this is really a trivial point in comparison to the excellence of Mr. Goodwin's work. The 2 volume set comes complete with tables and descriptions for every part of a reading, and Mr. Goodwin has many sample readings which will get you started. Without question, this 2 volume set is the best description of the subject you can find, and should be required reading for any numerologist.

if you are into numerology on any level...get this book!!! it covers absolutely every single minute detail of numerology and anything you could ever need or want to know is discussed...it is highly recommended and well worth the download!!! ^^

--This book is one of a two volume set. I highly recommend that one buys both. However, if you can only buy one the volume 1 is a must. Numerology : The Complete Guide (Volume 1) by Matthew O. Goodwin I cannot emphasize how strongly I feel that this book can help you in life. I am an IT professional by trade and I am an Intuitive Counselor in my spare time. I use the knowledge gleaned from this book daily. You're still not impressed? I have been using this book's information since the 1980's when I first discovered this. I did life calculations on all of my close family and friends. I was amazed. This was better than any astrology chart ever made for them. ACCURATE and USEFUL! As a parent, I have saved myself some anguish by guiding my children into their strengths rather than fighting them into a weakness. An example is I have a child with strong 7's and no 3's. (7's are analytical and 3's are creative) She excels at geology and gardening and all things nature bound but cried after a couple of months in music lessons. She was better in music after having her relate the notes to mathematical function so that she could "figure" them out. You can tell if your boss is a team player by the location of his "2" traits. (2's being teamwork tendencies) I could go on and on but you are probably reading this to determine if you should purchase or even just read this volume. THIS IS A MUST FOR ALL LIFE'S PATHS. This volume covers the general gifts you have received based on the name you were given and then use and your birthdate. It can show you how you change when you have a name change (i.e., a woman marries and takes her husband's name or John calls himself Skip in certain situations). If you would like to plot your life out similar to an astrological life reading, you will need volume 2 by Matthew Goodwin. Numerology : The Complete Guide (Volume 2) by Matthew O. Goodwin I had used this book and its accompanying Volume 1 since the 1980's. For you trying to decide whether to purchase this, my nearly 20 years of experience with this volume is not as effective as my pointing to solid facts: My grandmother is in her 90's so she has had a lot of life lived to this point. I could take her chart, from following the directions

in this book, and match it chronologically to major milestones in her life. One such example is that her year 1961 change from 6's and 2's to straight 1's. For the novice, 6's are love and balance traits, 2's are teamwork traits, 1's are independence traits. So what happened in 1961 you might ask... Her loving companion and husband, my grandfather died shy of turning 52. She has been single ever since. I could name hundreds of examples from calculating life readings from this book, but this is a simple example to which all can relate. I highly recommend this book and, if you can get it, Volume 1 is a must have! Matthew Goodwin truly has made some very valuable tools with his two volumes on Numerology.

This book is the most organized with charts and practical explanations to navigate the world of Numerology. I have used the original edition since it was published. So now I've bought 2 more so that I'll never have any anxiety about being without for the rest of my life. Thank you, Matthew Goodwin for your guidance.

--This book is one of a two volume set. I highly recommend that one buys both. However, if you can only buy one the volume 1 is a must but save up for this volume since it completes the subject. Numerology : The Complete Guide (Volume 2) by Matthew O. Goodwin. I had used this book and its accompanying Volume 1 since the 1980's. For you trying to decide whether to purchase this, my nearly 20 years of experience with this volume is not as effective as my pointing to solid facts: My grandmother is in her 90's so she has had a lot of life lived to this point.
