Customer Reviews

This is not like their other touch and feel books. There is only 4 pages and one of the animals is a

dog...I could think of many other "farm" animals that isn't a dog.

The pictures are delightful, and all the things to feel have captured my grandson's attention several times over. There is just enough wording on each page so as not to bore the youngest child by having to wait too long to feel the next page. I wish the book was a bit more sturdy, but I still recommend it, and I would absolutely buy it again.

We have several of the touch and feel books, but this is one of my favorites! A lot of the books just have a picture of the animal and its name or a word or two, these actually have a few sentences so you can interact a little more and talk about the picture. When you're showing it a nonverbal baby, a few extra words are always appreciated ;) It's the perfect balance of bright, bold, engaging photos and related text. My 6 month old loves it!

My 16 month old never sits still when we read. I purchased this book and another one similar to it in the hopes he would get distracted enough with the textures that he would sit still. I am happy to say it worked! I highly recommend this book to anyone with active toddlers.

Was disappointed not to see a cow and a duck in this book. The dog's hair was glued too hard to the book and only a bit sticks out. I would have preferred two animals to a page than 4 of the same. The chick is on it twice. On cover and second page.

Very cute book, my 2 year old daughter loves this book. She pulls it out and asks me to read it to her. She loves the touchable parts on the book. The book itself is good quality, the fabrics and textures used are nice and high quality, the pictures are all very colorful and the pages are fairly thick. Its about 6 inches by 6 inches, small enough to bring into the car to entertain her. Have several books of the same series, they are all very high quality and would definitely purchase them. It seems they will last a long time based on quality construction. It helped her learn which animals look like what and when you incorporate the sound an animal makes, they definitely learn very quickly. I recommend this book without hesitate, great buy!

My youngest son is 7 months old and this is one of his favorite books. He loves to feel the different textures on each page. The textured area is not that large, but it doesn't seem to bother him. He knows right where to go and loves to feel the textures. I am happy with the purchases and would

purchase this for a friend as a baby shower gift in the future.

The book had 5 pages of touch and feel. And the textured areas were nice and large for my 7 month old to touch. I recommend this product!
