Praise for the Ricky Ricotta series: "This reboot... offer[s] a new generation of readers a fun introduction to chapter books... Newly independent readers and Pilkey fans alike will not be disappointed by the humorous ride." -- School Library Journal "Aimed at a younger audience than the wildly popular Captain Underpants books, this series... has all the classic Pilkey hallmarks: comic book panels, superhero action, and flip-o-rama." -- Booklist

These books are so awesome. My 6yo son and I love reading them together. We're pumped to get a hold of the Penguin's from Pluto (#9), but we're hoping it's not the last one in the series. There is a hint at the end of the book that might suggest there will be more, I sure hope so!

My 7 year old son likes how this book is action packed. It has colored pictures and he loves "how the illustrator brings it to life."

My son LOVES all of the Ricky Ricotta Mighty Robot books. He pre-ordered this one with his allowance. As always, he can't put it down. He usually finishes the book on the first day, and this one was no different. Re-reading all week long. Love that there is a book sereies that holds his interest for so long!

I liked this book because of the penguin. It was funny when they forgot they couldn't fly. -Tanner, age 5

This series was requested to be added to the library by a second grader.

This is at a perfect reading level for my advanced 1st grader. While he reads ahead of grade level, he has the stamina of a first grader, so the Ricky Ricotta books are a perfect balance of challenging text and pictures.

Thanks again to Dav Pilkey for another one in his series of kid-friendly books. My son says that Dav is just like him and he really identifies with almost everything he writes.

Our 4 yo really loves reading this series and has read it several times and even brought it to school to share and trade with class mates. Any book that makes our kids read on their own is worth the price of admission. The story is silly and immature but that's what kids love. My son has rad the entire series already.
