Great books! I bought this one for Christmas for my 2 year old. We already had I Spy Letters and she loved that one, so it was a safe bet. We read through the story but she also points to all the other pictures and learns lots of new words. She's learning tons of new words through these books!

Highly recommend.

Cute but thought there was going to be more to it

Wonderful. Perfect for toddlers. Wish I'd gotten hardcover though. Didn't realize it was made in paperback.

This book is great! My son loves the search and find books. This is a great addition to his collection. The animals are quite easy for him to find (He is 6), and keeps him occupied for hours at a time. His sister as well enjoys the book.

Granddaughter is so drawn to this book - 18 month old.

Purchased for my nephew and niece, 5 and 2 years old, respectively, and they both loved it. Super simple - too simple for older kids, but they loved the pictures and naming all the animals.

This is a great little book for kids. We have a 18 month old girl who is just learning animals and loves to look at these I Spy kids books and find all the animals on each page. It is a high quality book with card board pages so they do not get ripped and ruined as my daughter insists on turning each page by herself. Great book. I would highly recommend it for the little ones.

I should have listened to the other reviews. The items in the pictures are sparse and there was no challenge to this for my 3 yr old.
