Everyone who wants to try and "curb" their sentence enhancers will enjoy this book. Some of my most creative designs are packed into this Alternative Swear/Cuss Word Book.

I received a copy of this book but was not required to review it. This is such a fun coloring book that is full of words you can try to say instead of swearing. Some of them were new to me, but some I have used many times myself. Each coloring page is on only one side of the paper, so you don't need to worry about your ink bleeding through to the coloring page on the other side. The coloring book has 50 different pages with a variety of designs including geometric, floral, and some that are like underwater scenes and cacti. A fun all around way to reduce stress by being creative.

I ordered this coloring book for my birthday. What wonderful designs and so much fun to color. You will love the designs and have many fun filled hours of enjoyment with this new coloring book by Nathaniel Wake. I look forward to more of his designs and have rated this one a solid 5 stars. Excellent value. At a great price.

Love this coloring book!!! And I appreciate that the cuss words are pretty tame lol! Nicely done!!

To me, this one seems much better planned out, than the first volume. The words are easier to make out, and the pages often have shakers that make sense with the words.

I got this coloring book from my buddy Ron, and what a great one he picked! It is very different from other ones on the market, and I really like the fact that it uses alternative cuss words, so it's not vulgar like all the "trendy" ones out there. You can leave this book out and not worry about

grandparents coming over (in fact, they will probably get a kick out of it!), and even kids can use it. Very intricate design patterns in this coloring book, so can definitely last a LONG WHILE even for the most hardcore adult coloring book user. I highly recommended!

I am so pleased with this purchase. I couldn't be happier that someone came out with an option other than cuss words not to mention I say most of the words in this book instead of cussing...lol!
Very detailed and fun to color!
