Understanding Family Law

Synopsis

Understanding Family Law includes comprehensive coverage of topics such as traditional and nontraditional families, nonmarital and postmarital contracts, annulment, paternity and legitimacy, procreation rights, contraception, abortion, sterilization, artificially assisted conception, and adoption and termination of parental rights. Like the prior edition published in 2005, this new Fourth Edition of Understanding Family Law explains specific family law issues, such as intrafamily tort immunity and liability, medical care for child and spouse, wrongful life and wrongful birth, domestic violence, PINS, CHINS, ethical issues for the lawyer, alternative dispute resolution, equitable distribution, community property, and child custody and visitation. This Fourth Edition is updated to reflect changes in the law since the last edition. The discussion of assisted conception in particular, has been substantially revised to address technological changes and new law, such as the post-death conception case. This Fourth Edition also includes references to 50 states surveys so the reader can find their local law quickly.

Book Information

Series: Understanding

Paperback: 612 pages

Publisher: LEXISNEXIS; Fourth edition (March 11, 2013)

Language: English

ISBN-10: 0769847447

ISBN-13: 978-0769847443

Best Sellers Rank: #694,340 in Books (See Top 100 in Books) #120 in Books > Law > Family Law > Domestic Relations #7059 in Books > Textbooks > Law

Customer Reviews

I like the understanding series. It is just thorough enough to expand on confusing topics.

If you're using a Lexis version of a family law textbook, this supplement is more helpful than the book! The citations in the supplement are up to date [unlike the \$185 book I had to buy] This is a must buy if you're trying to put an outline together before the exam

Very superficial overview, will not help with complicated jurisdictional or community property topics.

Great overview of the area of family law. Modern issues are discussed with the background of the family relationship as contract or social structure.

A must in every JD library

If you find out your professor uses the LexisNexis outline or supplement to teach from this is a must have. All the topics are clearly and simply laid out and you can quickly toss your casebook in favor of this LexisNexis book. I used it for my property exam and booked the class. The Understanding series are excellent for following along with classes.
