Customer Reviews

Starred Review. The first volume of this slacker-manga-action hybrid introduced Scott Pilgrim, a video gameâplaying regular guy whose love life leads him into irregular trouble. This second book opens with a peek into Scott's past: we see his early romantic troubles and the talentless band that sprang from them. In the present, Scott's new romance with mysterious messenger girl Ramona Flowers sends his former girlfriend, teenage Knives Chau, into a fury that culminates in an all-out kung fu battle between the two. In the surrealist twists that fill O'Malley's work, characters who are introduced in dreams end up playing major parts in the "real" life of the story, and you never know when the meandering lives of these Canadian 20-somethings are going to shift into high-action fight sequences. O'Malley gained acclaim and award nominations for the first Scott Pilgrim book, and he deserves the recognition. The story continued here is delightful, light, clever and surprising. O'Malley takes a manga influenceâbig eyes, informational inserts and explosions of energyâand throws in pop culture referencesâa band named the Clash at Demonhead, Ramona's skater turned movie star ex-boyfriendâto create a fresh, grungy style. The narrative jumps, combined with

sharp, sardonic dialogue, make this a great oddball tale that captures the energy of a generation.

Bryan O'Malley's run pokes fun at the banalities of life while making you feel like a twenty something kid again. The art is charming and original (even if you read Japanese comics). The diverse cast of characters are unique archetypes that keep you hoping they will come back in every panel. May slightly confuse those unfamiliar with videogame pop-culture, but not enough to distract one from the story. My wife especially loved the interlude short stories. Scott Pilgrim will leave you wishing for more once you've completed this six volume series.

This is where it begins to get hilarious and in-depth. You find out more about each character as their development begins to flourish, and at the same time it enables one to focus on many characters, opening up subplots revolving around The Band, Knives, and Scott's new gf. It feels real in certain elements of realistic relationships and at the same time it still utilizes fantasy elements to give more depth to a decent story.

I had to see what's with these books after I seen the movie. The movie just exploded with originality and style. Then I found they were based on graphic novels of a Bill O Maley. After reading the first scott pilgrim one I was naturally curious and to see how they measured to the movie. After reading the first two book I automatically knew that this Bill O Maley hit it right on the button. If you into comics, then you love this. If you into magna style books.. you still love this. Its very rare for something like this to be popular as it is now. I wish I knew bout these in high school.. but better late than never. The story is funny, the script dialogue is really natural.. it makes you get interested in these fictional characters. Even the way its looks.. a simple design of characters but with slight anime/magna influenced. If you seen the movie it still worth to get these as they go into the world of story further than it does in the movie. If you never seen the movie I really recommend to get these books then watch the movie. Either way if you pick up this book there very good chance that you wont put it down til you done with it. As fellow comic writer and fan I highly recommend this for anyone even remotely interested in this crazy world of video games, rock indie music, 20' s somethings weird olds, and the old factor of love conquers all in a very new aspect point of view. PICK IT UP! p.s. the i played the game too.. triple hit this franchise has become!

Once upon a time, a comic artist named Bryan Lee O'Malley did a comic series around a central character named Scott Pilgrim. That comic series got made into a movie called Scott Pilgrim Vs The World. The movie was not bad, but was definitely worth seeing if only because it made me want to read the comic series it was based on. And I'm here now to tell you that O'Malley's original series is awesome. It's also almost impossible to describe, but I'll give it my best shot and say it's original, it's funny, it's way surreal, and it's probably unlike anything you've ever read. On the surface, the plot arc of the six-volume series is centered around Scott Pilgrim, a twenty-something game-playing slacker in a Canadian garage band, who meets the girl of his dreams (literally) and finds he must defeat her seven evil ex-es if he wants to date her. But like an iceberg, the surface only hints at everything that lies beneath. Scott Pilgrim Vs. The World is the second volume in the series. The cast of returning characters include: Scott Pilgrim, a wide-eyed and likeable but perpetually clueless 23-year-old slacker who's in a garage band called Sex Bob-omb. ("I got in a fight. An _awesome_ fight." "Did you win?" "Uhhhh... not really.") Ramona Flowers, a roller-blading delivery girl for .ca and the girl of Scott's dreams. ("You're cool, Ramona. I like you." "You're lame, but I like you anyway.") Knives Chau, his 17-year-old Chinese former sort-of girlfriend ("My name is Knives Chau, and I'm a Scottaholic!") Wallace Wells, his cool but boy-crazy gay roommate. ("Look, Scott. I'm going to issue an ultimatum." "One of your famous ultimatums?" "It may live in infamy.") Stephen Stills, lead guitarist in the band. ("So, we're making vegan shepherd's pie." "So who's vegan?" "Uh, none of us.") Kim Pine, the band's drummer and Scott's ex-girlfriend from high school. ("Scott, you are the salt of the earth." "What?" "Oh, I'm sorry, excuse me. I meant _scum_ of the earth.") Young Neil Nordegraf, Stephen Still's roommate and the band's biggest fan. ("Chopping vegetables keeps us out of trouble with the law.") Julie Powers, Stephen Stills' on-again/off-again but always bitchy girlfriend. ("I can't believe you went ahead and asked her out after I _specifically_ told you not to do that!") Stacey Pilgrim, Scott's younger sister. ("Ramona, are you crazy?? You can't just tear up giant metal art objects like that!") And in this volume we meet Envy Adams, Scott's former girlfriend (and former bandmate) who's now a huge success. And last but not least, Lucas Lee, former skateboard superstar turned moviestar/sellout, the second of Ramona's evil ex-es to challenge Scott Pilgrim. ("Okay, look, give me all your money and I'll let you live. I'll tell Gideon you beat me up." "Wow, you really _are_ a sellout!") Just read it. You'll be hooked. I highly recommend this book (and the entire series) to anyone who appreciates a comic series with a unique visual style, engaging characters, the kind of surreal world we only wish we could live in, and just a great fun read.

I purchased this as an e-book, so understand that everything I reference is from reading this on a

10" tablet. I got my son hooked on Scott Pilgrim before the movie came out. He's worn out his original set of books. When I saw the color versions available and that it was available as an e-book, I jumped on the chance. The art jumps off the page in the bigger format (thanks to the tablet's screen being larger than the original books), the colors are vibrant and well-done, and it feels like reading the series again for the first time. The story itself is rich, complex, and for being such a fantastic subject, very realistic when it comes to its characterizations. I can't wait until the rest of the volumes are available in color!

Arrived on time and in perfect condition. I love this story and already have a copy but wanted a full color version and I was not disappointed.

So fun to read

Super fun.
