Customer Reviews

I am amazed to see that no one has written a review on this book yet. With a couple subject tests coming up, I looked around online to see which prep book might be the best investment. It didn't take long to realize that Barron's was, by far, the most popular. The reviews I read argued that Barron's books would over-prepare a student and I would certainly rather be over-prepared than under-prepared. That is exactly what this book offers, through extensive grammar lessons, practices, and ten practice tests. I, a proudly self-taught student of Spanish with a year under my belt, have learned more from the first hour of reading through this book than I have in the past couple of months. I am extremely impressed by the amount of useful and specific knowledge

provided. It seems that almost every major concern (and many minor ones) that I've had with speaking Spanish has been addressed in the book. I think it was one of the best investments I've ever made.

This review book is THE BEST. Not only does it have a very comprehensive grammar review (unlike Princeton review), it also has many questions worth of drills plus tons and tons and tons of practice tests. And the practice tests were very close to the real thing. If you stick with this book for a long time, you can't go wrong.

As a teacher, this is great to help my students prepare for the test and really any type of college placement exams. I love the listening sections and I love that there are 10 practice tests in here. Great product!

Excellent study guide. The practice tests were extremely helpful.

Great!!

Very helpful book, especially with the CD. Some instructions were a little hard to follow, but after realizing what they meant it was fine.

I used this book to study for the SAT Test II without listening. Having only taken a few Spanish courses this book was a great help. It broke curriculum into specific trouble areas including false cognates, noun genders, and verb use. The practice tests and answers are broken down into easily understandable sections, and it included an easy to follow (and accurate) self-scoring sheet.

I decided to have this book for preparing my grand daughter in SAT Spanish and she got a 770 score. Thank you.
