Earl Nightingale Reads Think And Grow Rich

Synopsis

Earl Nightingale said that he came to his "aha" moment at the age of twenty-nine while reading Napoleon Hill's *Think and Grow Rich* - specifically the words "we become what we think about". Shortly thereafter he recorded *The Strangest Secret* which went on to earn a gold record and became the largest selling non-entertainment recording in record industry history. *Think and Grow Rich* is the standard against which all motivational books are measured. The book (and audiobook) has helped millions of people create their own success and realize their dreams. This audio condensation brings those two worlds together again - an audio lecture by famed broadcaster Earl Nightingale that clearly and quickly reviews Napoleon Hill's classic success principles. If you've never read or listened to *Think and Grow Rich* before, this audio condensation may serve as your own personal "aha" moment. And if you have read or listened before, then this forty-two minute motivational gem maybe the best refresher course ever to set you back on the road to riches. For the Two-CD package - Plus a bonus disc of Napoleon Hill's lecture on *The Three Major Causes of Failure!*

Customer Reviews

has done us a huge disservice by lumping all the reviews for the various "original" versions of this book together. The version I purchased (black cover with money on the bottom, kindle version) is riddled with errors where the publisher evidently **SCANNED** the book in and then didn't bother to edit the results. Page numbers appear randomly in the middle of paragraphs, "m" appears where

clearly "in" was intended and in some cases paragraphs just end in the middle of a sentence. This is a great book but some of the publishers have done a terrible job reproducing it and isn't helping by grouping very different copies together in the same review group. I hope to update this review when I find a less crappy copy of this book, but avoid the version with the black cover with money on the bottom. (See pictures)

Finally! a clean and unabridged edition. I had to purchase two other editions before finding this one. It is clean, good size font, and true to the original 1937 wording. Published by Dauphin Publications ISBN 978-1939438256. Nice job!

This should be read by every high school and college student and kept as a reference for their entire career. I would recommend this to everyone. It is full of life lessons.

Will help you with your goal setting and how to get their. If you don't have a financial direction commented to memory buy this book to get you on a profitable path. Ih, I don't work for this company, never did. I am retired and loving it.

This is one of the best books I've ever read. It can be confusing at times, but that's just because there's so much wisdom and insight here that it can only be extracted and understood through patient, careful reading. I'm going to wait a month or so then read it again. I've already implemented many things from the book and have really come to see the power of the mind. More than anything else, this book contributes what is missing from so many of today's books on wealth and success: mindset. Most authors today focus on techniques and strategies, which are good, but they neglect mindset. This is so key. Get that right, and success will follow. I would recommend this book to anyone who cares about being successful in any form in life, and is willing to learn and act to achieve their highest goals. I've dared to pursue desires I would never have had the self-confidence for before reading this book. This is a classic for a reason.

I was looking for a book that not only inspires me by telling me what all I can achieve, but also how do I achieve it. This book is kind of a recipe with specification of each ingredient to used in what order. It's old, but it deals with a subject that can never get old and still is mystery to humans- Mind, thought and transmutation. It's fascinating how long this concept has been a mystery. Till date, every successful person says the same thing that this book tells us- Desire and you may

achieve. It's a great book which inspired me and will always be a go to for me in near future.

Great book. I love the strength and simplicity that this book brings to the table. It is thought provoking, challenging and very surprisingly quite relevant in today's society. History does seem to repeat itself! If you are looking for serious research and serious action steps to further not only your money, but your life existence, then this is THE book for you. Be prepared to read it 2 or 3 times in order for the information to really sink in and become of your normal thought behaviors and patterns. Great book.

Yes you will have to read past some of the dated references, but all that takes is a tiny bit of understanding. This book has helped me in great true ways. This is the only version I have, and like many older books converted to Kindle, it has some glitches here and there, but nothing that affects the material. Read this if you are interested at all in self-help or motivation on any level. Personally it does get a bit old with the full caps and redundancy as the author HINTS to some unspecified secret to success. I am unsure why Hill would put so much energy into writing a long book, and saying, that you have to figure out his "MYSTERY" a thousand times, when he could just come out and say what it is. I guess I get it, because he wants you to figure things out along the way. But don't get me wrong, this book is a treasure because of the ultimate system that it helps you make for yourself. It is actionable and I think it is what every self-help book after it is based upon. I also think that this book is fertile ground for reworking. The material could be a huge help to more people if it was edited, redone, and instilled with a sense of brevity for modern times. Perhaps someone has already done exactly that. Overall, even for all of its shortcomings and what is lost in translation, this is still a 5-star find just due to the content of the system it contains. But you will have to be patient and skim judiciously to find it here.
