Best Sellers Rank: #260,534 in Books (See Top 100 in Books) #21 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Leathercrafts

Customer Reviews

I found this book to be very interesting. The book talks about the leather types, the useful tools necessary, and techniques, all very good. However, when you get to the part about the downloadable templates, the web address is incorrect, so you cannot get to the templates to make the projects.

Book looks okay but it is impossible to pull up any of the on line templates. I keep getting redirected to a book site in England. I was stoked to make the tool bag but I wont cut the \$135 bucks worth of leather without the template. I know how to make a book mark, bleh. If they promise templates we should get templates. Book was a B- or 3 to 3.5 stars, The templates would get it over a 4.

The book is nice and a good start for first time leather crafters. However the templates are not available online as the web address in the book is incorrect. There does not seem to be a way to get the templates. This is a frustrating disappointment.

This book is really great for the beginning leather crafter. It shows all the tools and how to use them. It also has a section on the types of leather and how they are graded.

Very detailed, easy to follow instructions, and great illustrations.

Thanks!

I've started making leather handbags, wallets etc after taking a class with a professional. I learned a lot in that class and create everything without a pattern, but still consider myself a novice. This book covered a lot of what I already knew, but also has stitches that have proven incredibly useful. Their recommendation for the super sharp scissors has saved me endless heartache in trying to cut curves!
