ACT Prep Book 2016 Study Guide: Test Prep & Practice Test Questions For The ACT Exam

Synopsis

ACT Prep Book 2016 Study Guide: Test Prep & Practice Test Questions for the ACT Exam

Developed for students trying to score well on the ACT, this comprehensive study guide includes:

- Quick Overview
- Test-Taking Strategies
- The English Test
- The Math Test
- The Reading Test
- The Science Reasoning Test
- The Writing Test
- Practice Test Questions
- Detailed Answer Explanations
- Appendix A: Time Statistics for the ACT
- Appendix B: SAT/ACT Equivalency Table
- Appendix C: Area, Volume, Surface Area Formulas

Each section of the test has a comprehensive review that goes into detail to cover all of the content likely to appear on the ACT test. The practice exams are each followed by detailed answer explanations. If you miss a question on the practice exam, it's important that you are able to understand the nature of your mistake and how to avoid making it again in the future. The answer explanations will help you to learn from your mistakes and overcome them. Understanding the latest test taking strategies is essential to preparing you for what you will expect on the exam. A test taker has to not only understand the material that is being covered on the test, but also must be familiar with the strategies that are necessary to properly utilize the time provided and get through the test without making any avoidable errors. Anyone planning to take the ACT should take advantage of the review material, practice tests, and test taking strategies contained in this study guide.

Customer Reviews

This book has been very valuable in helping out with math. That's been a problematic subject for me

and I think I've got a much better grasp in this area thanks to this study guide. It gives some general test taking advice and then there are individual subject areas broken down. There are also a bunch of practice questions and answer keys with explanations.

The worst prep book I have ever seen. Two things. First, the practice tests are too easy compared to real one. The length of passages are not even close to real one. The questions are extremely direct, which isn't the case in real test. Second, the explanation part for practice test is just awful, and doesn't help understand at all. It is like this, why the answer is C?, because C is correct. Many of them are circular. This book will give you a relief, but will not help you boost your score up.

Seemed useful enough but not only 2 test samples. Ended up not taking the ACT so not sure if it would have made a difference.

great practice for ACT testing.

So my kid probably just slept on this book and got a 30 on the ACT. Your mileage may vary.

This was not as helpful as I needed it to be. I haven't been in school for 21 years, and things are a bit foggy, to say the least. The instructions for the math section, especially Algebra and Trig were extremely confusing. There was no publisher info, etc, and didn't seem to be very "legit".

We bought this ACT prep guide as a first prep guide for our son. It is very good without being overwhelming. It breaks down each section of the test with sample questions. There are also hints as to how to approach each section of the test that were very informative.

Good practice guide for our junior
