Customer Reviews

I found this book to be full of some very good techniques for adjusting to lane breakdown. Oatis does a good job of explaining in specific enough detail how to use the whole approach to adjust your shot including forward and back. Would have been 5 stars if not for the poor editing job done.

I bought the Kindle version . . . LOTS of misspellings, drives me CRAZY!! I think the book is good the editing is HORRIBLE!!

Great title. Not very informative. Less helpful.

I have a hardcopy of the book and picked up the kindle version as well. Highly recommended. Not always easy to follow, but the information is priceless.

experienced bowlers should know most of this but we tend to forget. a good reminder. could be written a little better. sorta in note book form.

It helped me with the 10 pin immediately. Lots of good suggestions to follow. It is true that the editing is not perfect but the information is very good.

There are some tips in here that make a lot of sense to aspiring bowlers. 9 adjustments is truly golden.

True Bowler Adjustments did a good job of breaking things down for a beginner, like myself. It also contained useful information for my husband, as an advanced bowler. We were quite pleased with the transaction.
