Very challenging questions. I'm using it to study for NBEO pt.1 but I haven't taken it yet. Many questions in the general pharm section (about 200q) have drugs that are not on the NBEO outline. It is probably more of a review of everything covered in optometry school, rather than being specific to boards material. Good, high-level questions for disease, neuro, and ocular pharm. More difficult than KMK and Optoprep questions. Probably harder than boards questions, but I wouldn't know yet.
