Man Vs. Beast (Cherub Book 6)

Synopsis

CHERUB agents are all seventeen and under. They wear skate tees and hemp, and look like regular kids. But they're not. They are trained professionals who are sent out on missions to spy on terrorists and international drug dealers. CHERUB agents hack into computers, bug entire houses, and download crucial documents. It is a highly dangerous job. For their safety, these agents DO NOT EXIST. Mainstream animal protection groups have always stayed within the law, but a new band of radical liberationists argues that if humans and animals are equal, then it's right to kill or threaten one human in order to save the lives of many animals. In a new mission, James and the other CHERUB agents must go up against the most radical group yet in a daring and violent attempt to save hundreds of lives...including their own.

Customer Reviews

I have never picked up a book series and have been so amazed by words on paper. Robert Muchamore has a serious skill for making you feel as if you are standing right in the middle of these stories. I originally borrowed the book series from my cousin but they were just so good I had to buy my own set as I couldn't stop reading them. Man vs Beast is another Robert Muchamore book that

you will plough through without even realising how much you have read and at that stage you will realise your done. Stop reading this review and go buy it!!!!

I bought the book for my grandson. He loves the series.

i loved this book it is such an interesting and irresistible novel and makes me want to become a spy. it is an absolute joy to read and i laugh cry and feel all of the emotions of the different characters, i am amazed at how Robert Muchamore invented this story and made it so realistic. this book makes me feel good about myself and makes genuinely happy and thrilled. it is a wonderful book and i love the rest of the stories as well. the only ting i would change is that i would make James incredibly hot and well-mannered.

My pre-teen son who normally cannot stand reading loves reading books written by this author. I would highly recommend these books, this author, and this series to others.

My grandson loves this series!

Shipped right away and book as described
