The Loneliest Tree In The World: An English Family In Seychelles - Volume 3

Synopsis

This is the final volume in the English Family in Seychelles series, following the fortunes of Martin and Joanna Varley and their four children, who have packed up their troubles and left the UK for a new life in Seychelles. Having learned the essential skills of how to harvest bananas and cook breadfruit, the family are well on their way to mastering tropical living. But paradise is unpredictable and it still has a few more surprises up its sleeve. But it's the country's surprising wildlife which is the star of this book. Encounters with endangered bats, rare birds, two-tailed skinks, newborn sea turtles, and of course the loneliest tree in the world, all reveal a side of Seychelles which is overlooked by the luxury tour operators and cruise ships. If you want to discover the real Seychelles which they don't show you in the glossy brochures then look no further than 'The Loneliest Tree in the World' and the other books in the series, 'There's a Centipede in My Pyjamas' and 'A Gecko Blew Up My Toaster'.

Customer Reviews

I loved it. Amazing funny book about blofe in Seychelles with a good sense of humour. I really enjoyed it, made me laugh a lot because it's funny but in a way it's very true how life goes there.
