The Crystal Stair- A Guide To The Ascension; Channeled Material By Sananda (Jesus) With Ashtar, Archangel Michael And St. Germain

Synopsis

The experience of Ascension in the natural "next step" of human evolution. The Crystal Stair describes how this leap in consciousness will be made available to all of humanity in our lifetime and introduces us to the spiritual hierarchy that has inspired and nurtured truth-seekers in every age. Through these channeled messages, the Ascended Masters lovingly and gently awaken us to the truth of our human destiny. --This text refers to an out of print or unavailable edition of this title.

Eric Klein was initiated and began his spiritual practice in 1972. He began channeling the Ascended Masters in 1986, and between 1989 and 1997 he channeled the Masters in hundreds of public sessions for groups in California and across the U.S and Canada. Transcriptions of some of these changelings were published as books (The Crystal Stair, The Inner Door, Jewels on the path, and Sacred Journey). Eric lives in Santa Cruz, California with his wife Christine, who is an acupuncturist, Qi Gong teacher, and devotee of Amma Chi. He currently balances his time between his continuing spiritual practice, book and tape publishing, songwriting, and music projects. --This text refers to an out of print or unavailable edition of this title.

This is a later edition of the original book that was published. I love the purple-theme cover and the purple print in this. This book offers unmatched guidance in how to understand your spiritual self and develop your consciousness ultimately into that of a Master Self. I bought the original edition of

this book and thrived on the wisdom and guidance back in 1990. The wisdom is equally appropriate today as it was back then; maybe even more needed today. This is the first of Eric Klein's 3 book series. I have purchased 5 of these as used books through in order to share this valuable information and guidance with my reading group. Thank you, Eric Klein!

I originally bought this book when it first came out in the 1990s. I loved it then and I love it now. It is not easy to find as it has not been in print for many years. However, if you can find it and want real inner guidance, this book is the one for you. You won't be able to put it down! I am sharing it in a reading group and everybody is eager to apply the wisdom and guidance within these pages.

The Crystal Stair - A Guide to the Ascension is one of the first books on the concept of Ascension and the end times. It is a synopsis of a course the author gave during the 90's. While the book is interesting and well written, the message is somewhat obscured by a mixture of sensationalism and pandering. A good introduction to the concept, as long as the reader ignores the more sensational and dubious statements. Of historical interest to the student of spirituality.

This book is wonderful. There are five in the series of information from the other side. All of the information from the ascended masters, Jesus, and Mother Mary provide the answers to ascend into the unconditional love that is our birthright.

I tried this book anywhere and I could only find it on ... who else?? Of course my English is not the best, but I am happy to have found it, in Italy this book is out of print!

An inspiring read for all those serious about ascension and growth. It may strike others less evolved and open as weird, but it is only meant for a small percentage of the population. Read if you feel called to!

I must agree with the two most recent review writers, David Haven, and the writer from USA who titled his review "Goofy and scary". I consider myself to be a very spiritual person, so I am not deriding new age or "new spiritualism" material per se. But there is so much material out in print now, claiming to be channeled messages, claiming to bear the Truth, and so on. It is quite difficult to be discerning, and to know what is real versus what is just commercialized [stuff], written by authors who would cash in on the movement, or worse, who are completely deluded and actually believe

their own nonsense. Some of these people just make up terms as they go along, mixing and matching whatever sounds exotic; e.g., "crystal-angel", "clair-sentient", and many more such examples. The abovementioned reviewer correctly states that there is no command structure in the Higher Realm. There are deeper/higher states of enlightenment and, perhaps a good word would be, sponsorship, but referring to a spiritual being as a "Commander" only betrays the author's complete lack of knowledge as well as attributing all-too-human qualities to that which cannot be defined by our limited physically based habituations involving control, command hierarchies, domination, etc. Our spirit guides, helpers, angels, however one wishes to refer to them, are among us to assist and inspire, to gently lead through private revelation. One cannot become enlightened, cannot attain the higher states of being, by submitting to anyone claiming to be a higher authority or by becoming a sycophant to a channeler. This is particularly true (and a sad spectacle) with expensive weekend seminars given by the self-proclaimed voices of higher energy beings. True spirituality, and Truth itself, is not for sale, nor should one ever be induced to pay dearly for it through false claims of wisdom. Choose wisely, Travelers. Your path is your own, and only you can find it. Do not be beguiled by words that purport to be more than you are. We are all One, vessels of God's essence, moving continually towards reintegration with Him. It is the divine inner journey that matters.

This is the fourth edition of a book that put the idea of ascension on the map of world consciousness. The information it contains has reached hundreds of thousands of people worldwide and this new edition brings it up to date with the latest channelings on this subject. If you are new to the idea of ascension, this is the place to begin shifting your awareness of what is possible. You might also want to read Eric's fourth book, "Sacred Journey" to put this all in the larger perspective of the spiritual path. I have read and re-read this book many times since I first came in contact with the material. It is easy to dismiss it because it is so pure and so understated, but in my experience it has stood the test of time. I have found that I understand it best in hindsight, AFTER I have had certain experiences. I can then say, "Oh, yes. I remember that was spoken about in The Crystal Stair." In my opinion, Eric is one of the highest and purest channels alive today, and although this book subsequently inspired many others to write about the subject of ascension, it still remains the truest account of the ascension path and experience available to us at this time.
