# The Key To Crystals: From Healing To Divination: Advice And Exercises To Unlock Your Mystical Potential (Keys To)

## **Synopsis**

Unlock the mystical powers of crystals. For thousands of years crystals and gemstones have adorned princesses, prophets, kings, and warriors, but they have also been used to invoke powerful healing energy and used as divination tools. The ancient Babylonian astrologers believed that white quartz crystals harnessed the power of the constellations to determine the future, while the Egyptians used stones such as obsidian to protect the wearer from evil. In fact, crystals are the most natural, empowering force we can work with to help unlock our own mystical powers. The Key to Crystals helps you master the art of crystal reading, develop your own intuitive powers along the way, and discover all there is to know about the magic of crystals. It uses a combination of detailed background information and fun, simple, interactive lessons and exercises to help you unlock your own mystical potential. In addition, each of the book's four main sections concludes with a specially designed "masterclass" that takes you to a deeper level of understanding, if you feel ready to do so. By understanding crystals and working with their powers, you too can discover the hidden energy of the cosmos that flows through you. Not only can you work with crystals for all forms of healing, life enhancement and making important choices, but also to divine the future and make your destiny what you want it to be.

This book touches on a little bit of everything, from crystal meanings, history, chakras, an intro to pendulums, astrology and stones, to many different ways to use them. The only thing I didn't care for was that the crystal meaning are spread throughout the book, a little is explained in several sections (i.e. It tells you a little about jade in the different sections of psychic protection, day ahead oracles, crystal oracles, and subduing stones, but it doesn't combine all this into one page you can open up to and get all of the crystals meaning at once) over all so much to learn from this book and I'm thrilled with it

wife really likes this book

If you love crystals and stones as much as I do then this book is right for you. The crystals and stones are described throughout the book. Also with some crystals are used for health wise. Crystals are fun to collect and display. Each crystal is different in design and shape. I started my crystal collection by checking what the crystal means and how to recharge them. If a crystal catches your eye and it feels good to hold buy it. I highly recommend the book. I was given this book from Quarto Knows for an honest review.
