Who Really Owns Your Gold: How The Jesuits Use Gold Economics To Control Humanity

Synopsis

We The People are facing the most grim of events in our nation's history. While difficult to fathom now, especially since you may be experiencing isolated prosperity, what you are about to read is real. And frighteningly accurate and true. Another book about the manipulation of gold. Who needs it? We The People, because this book is about more than just gold economics. It's about the manipulation of every sector of life across the globe by a dynastic group of men in Rome, who are successfully building a world that is counter to every good belief we hold dear and true.

Customer Reviews

"Garner also explains how the Jesuits' team of agents over the centuries have infiltrated every government and military organization that allow them to effect events like controlling the out-come of elections and the passage of illegal and frightening legislation like the NDAA (National Defense Authorization Act of 2013). How does this get passed by the US Senate with a unanimous 98-0 yes vote and then signed by the President of the United States so quickly?"[Continued in Book Reviews for Who Really Owns Your Gold]--Bruce B. This concise well researched book is obviously a product of many years of experience in worldly affairs not commonly available to the average reader. Despite what many believe, we are about to embark on a truly revolutionary period of economic upheaval globally and this dense treatise on how this will affect your finances and your personal security is both timely and necessary. --Michael T. Wilson

*****NOTICE TO BUYERS*****The following books by Sean Maclaren are sequels to

this book and should also be read:Â ROMANIC DEPRESSION: How the Jesuits Designed, Built and Destroyed America; ARCANUM: A critical analysis of the original 36 sermons of Jmmanuel, the man known to the world as Jesus Christ.

This book is an excellent expose of the truth concerning who controls the economies of the world. However it is put together in a weird format. It is preceded by a totally unrelated short book "The History of a Boob" which has nothing to do with the subject. It is about a breast cancer survivor! Having the boob book appear first creates much confusion.

When I started my truth journey approximately 10 years ago, I realized that something was amiss on this planet, especially in my home country the USA. I had noticed things here and there that didn't add up, but thanks to the many distractions that I allowed in my life, I was very unaware of what was really going on and rarely took the time to research anything. But eventually I did start listening to alternative news outside of the tightly controlled main stream media and started asking some tough questions. One of the first pieces of information that I came across that bothered me was that in 1983, 90% of American media was owned by 50 companies. By 2011, that same 90% was now controlled by only 6 companies. This didn't set well with me as I was taught that I was part of a free-enterprise system. This looked more like a slow, methodical, controlled takeover. I then learned that the Federal Reserve was not a US government entity, but a private company. How could I have not known this? I'm an educated person and my parents were very intelligent people as were their parents. How could three generations of our family not have known this truth? Then came the truth about the Federal Reserve Act of 1913 that was never officially (or legally) passed that started the USA on this downward spiral of debt and the paying of personal income taxes to this private company, the Federal Reserve. The US government used to print its own money and now our country was a slave to a private company? How in the hell did our leaders allow this to happen? I heard the names of wealthy industrialists like Rockefeller, Rothschild, Warburg and Morgan being associated with the passing of this act and their roles in the financial takeover of America from this point on. These super-wealthy men now wanted total control of our financial system? Didn't they already have enough money, power and control? Were they the only ones involved or were they being directed by an even more powerful, hidden organization? According to the in-depth research and tireless efforts of William Dean Garner, just one hidden organization is responsible for all of the above and many more travesties. The organization he names is the Jesuits, also known as the Society of Jesus. I had come across the name of this organization on only a few occasions on my

truth journey up until reading this book, but I still knew very little about them, their origins and what their purpose was. I still have never heard their name mentioned in the main stream media or even investigative shows or the main stream radio stations. Why do we know so little about them? Are they truly the hidden ones behind the curtain controlling things? The quote "true power rests behind the throne" comes to mind. Do people fear using their name in the media to the extent that it could cost them their job, career or possibly their lives? Is their staying hidden in the shadows and allowing others to be their public face, by design? Garner uses his knowledge of the history of gold as a way of introducing us to who the Jesuits are, how they have used gold to manipulate humanity over hundreds, if not, thousands of years and what their future plans are for humanity on our planet. In great detail, Garner documents in chronological order how the Jesuits have manipulated gold over the years using the Rothschild's and others to be the facilitators of their long term plans of enslaving all humans. Garner connects the dots that link the Jesuits and the monetary value and manipulation of gold to major wars, false flag events, economic collapses and the loss of allodial property, to name just a few. His research also exposes the Jesuits and how their willing accomplices, the Rothschild's, have been caught multiple times manipulating the price of gold, raping people of their hard-earned money and causing economic collapses only to receive the equivalent of a slap on the wrist and never anyone ever being sent to jail for their crimes. It was proven they committed the crime. Why is nobody being held accountable for their actions? Garner also explains how the Jesuit's team of agents over the centuries have infiltrated every government and military organization that allow them to effect events like controlling the out-come of elections and the passage of illegal and frightening legislation like the NDAA (National Defense Authorization Act of 2013), part of which reads, "the indefinite detention of American citizens by the military without due process at the discretion of the President" whether you are in the USA or traveling to another country. How does this get passed by the US Senate with a unanimous 98-0 yes vote and then signed by the President of the United States so quickly? According to Garner, the Jesuits are the architects behind scary legislation like this as well. If you're looking for iron clad research and true history, you need to read this book. You may not agree with everything that Garner presents and you will no doubt not want to accept that one organization could have so much power and control over billions of people on this planet. But, in time, you will learn to appreciate the information that Garner is presenting. Thank you for your time in reading this review. "New truths go through three stages. First they are ridiculed. Second they are violently opposed and then, finally, they are accepted as being self-evident." ~ Arthur Schopenhauer

Item as stated, good communications, fast shipper, fair price! I would purchase again.

Excellent book! Explains the money system we are in to a T!

William Garner has provided the reader with a general overview of the history of the "real" folks that own and control the gold. I gave it five stars because it provides an introduction to the background of how money has been used to enslave humanity, from the times of the "money changers" in the Jewish Temple, where they shaved coins to collect the base metals. Despite the fact that everyone uses some sort of currency, very few know or understand how their lives are controlled by the Jesuit-controlled Vatican Banks. The Jesuits commissioned the House of Rothschild to act as the Vatican 'Fiduciary' agents since 1823 and have orchestrated world financial boom and bust cycles to benefit the coffers hidden away in the bowels of the Vatican and their Swiss banks.

Intentionally brief, I suspect much of its value resides in the bibliography. I don't see why brevity is so important. Author has done the research, should have included more references. Other books offer more value for info delivered, but maybe not with equal panache. Dangerous topic.

Hi, Nothing is more important for your future than to have a clear world view. Who Really Owns Your Gold helps defrost the windshield and reveals the truth in who and how the financial system is rigged for the benefit of the power elite. Understanding this manipulation is one of the first steps in being able to take positive steps to stop the financial parasites from draining your bank account. A must read.
