I love this book! There is just some info that it doesn't cover that "Becoming Orgasmic" does. Couple this book with that one and you've got the complete mix.

Not an easy read. The information is presented in a dry manner. (No pun intended) It breaks women into a 1-5 level category of difficulty- the book would be better if they then carried that through with a color code. So if you are a #5- then you could flip through and JUST read what pertains to you!

Great book, good price. I was pleased with my purchase.

worth reading.

This is a nice how to guide to overcoming the psychological blocks that can prevent someone to reach orgasm. I really like the program's listed and I think both programs should be practiced regularly because they allow individuals and couples to slow down and enjoy themselves regardless of any sexual block they may have.

I read this book for a class in college, didn't really provide any information that can't be found elsewhere online. Not a bad read, but not really worth the money.

I would recommend this book to any man or woman. It is very scientific. It explains the how and why and how to achieve!

Excellent for all levels.
