Customer Reviews

This book is perfect for my 3-year-old Star Wars obsessed son. I couldn't say how much an older kid would like this, but it is clearly not intended for bigger kids. My son enjoys the pictures and easy-to-follow "story". He's even started reading some of the words. No, there isn't a plot per se, it mainly is about the droid characters and what they do, in very simple sentences. Absolutely perfect for a little one just learning to read. We've read this book several times and it's a great little bedtime story for a parent. You can breeze through it in a couple of minutes even taking time to study the pictures and help your little one sound out the words. My son likes the whimsical illustrations, which are recognizable enough but not spot-on representations of the characters. The book covers droids all of the movies, including BB-8 from the new one. There are cameos by Luke, Leia, Han and most hilariously, Chewbacca. It's just a fun little book.

The Little Golden Book "Star Wars: I Am a Droid" is a great way to introduce your kids to the Star Wars universe! Despite never seeing the movie, my 3 year old daughter became enamored with BB-8 after the release of "The Force Awakens"

I purchased the I Am A Droid/Jedi/Pilot books after previously buying the complete Star Wars saga Little Golden Books for my 5 year old for Christmas. The saga books were a big hit with him, and they had nice, somewhat lengthy (for a Golden Book) summarizations of each movie. The "I Am" books, however, seem geared towards a slightly younger audience. Each page has a short sentence or two, and doesn't tell a story. Instead, it offers examples, traits, and what it means to be each thing. That being said, they are still nice little books and would be perfect for younger audiences with limited attention spans. The artwork is adorable, as well.

After downloading, it says "this publication is not compatible with your device".It said that on a Kindle Paperwhite, iPad kindle app, and iPhone kindle app.

These books are a great quick read and introduce some characters kids may be missing in the movies or shows if they don't pay really close attention.

The book was cute - simple. It gave the basics on the different type of droids in the SW series. Could have been a little more detailed/informative. (The corner of the book was also bent, but I'm not going to subtract stars for transit issues)

My son loves this book and I like the fact that it has some more advanced vocabulary words that wouldn't normally be in a kid's book in it.

Not enough BB8
