Customer Reviews

Sadly, the book is useless. The maps provided depict areas where crimes have occurred without differentiating between car prowls and murders. As a result, it seems that 75% of the city is unsafe,

and I'm sure that isn't the case. This is one of the very few books I've returned/refunded, as it fails to provide any real value. Avoid it!.

I wasn't happy with it like I thought I would be. It was hard to use their index to find the appropriate areas that I had addresses for and wanted to check. I was unable to enlarge the maps also which made it even harder to narrow down streets. Glad I only borrowed it!

In every major city, there are shady places we should avoid, especially if we are not use to the city.
