Jeff Welsch has written books and articles on topics from sports to Native American issues to history and politics. He is also a senior editor for Montana Quarterly and lives on the Gallatin River outside Bozeman, Montana. Sherry L. Moore, an educator and writer for over three decades, has coauthored several guides to the western states. She lives on the Gallatin River outside Bozeman, Montana.

Excellent guide book. We used this for a trip to Yellowstone in June 2014 and it was invaluable. We would never have known about the beauty of the drive between the eastern entrance and Casper, Wyo - a must see.

Not real good..can get this information off the park sites and a lot more current.

Accurate guide at about the right level of detail. Gets you to the "important" points in the park and tells you what to look for and anecdotes.

interested in going there later on this year. It has all the information you need to have a nice experience.

This was a big help in planning our trip.

Listed as good, more likely fair condition. I opened up to start reading and the binding is separating from the pages pretty bad. It's more than just minor wear. Other than that, product as described with very quick shipping

It's great to see a guidebook recognize the realities of modern technology. We can find listings of park sights, hotels and restaurants anywhere; what we liked about this book is that it gives us the story behind the stories, and really helped us choose where to stay and eat. The writing style is breezy, fun and informative. We especially enjoyed the history, geology and interesting insights into some of the key issues surrounding Yellowstone and its wildlife. Well worth having along on our trip.
