Hepatitis C Never Give Up HOPE

Synopsis

Love was to be shared between author Cindy Bowles and her husband Harold when he first saw her barrel racing at a rodeo. They soon became high school sweethearts and married young, going on to invest in the farming life and become parents to four children. However, their comfortable life took a disastrous turn when Harold became regularly fatigued and prone to angry outbursts. In her new autobiography, *Hepatitis C, Never Give Up Hope*; the cause of Harold's sickness was hepatitis C, which also fueled his diagnosis of Stage 4 cirrhosis. However, Cindy believed God could do the impossible and could be counted on for a miraculous recovery for Harold. Whether it was getting a needed liver transplant or daily strength to handle the ups and downs of the disease, her book reflects an understanding that to never give up on hope is to never give up on God.

Customer Reviews

This is a book to be read by everyone There is a boundless amount of Love Strength Joy Patience Faith and life in the making Cindy does a great job of making the reader feel like they are in the presence of every situation If you lack faith or strength of any amount this is your book If you have faith or strength already then this book will make it stronger Extremely INSPIRATIONAL and so very life-like This can happen to any of us at any time I pray that if I experienced this that my Faith could be strong like hers and Harolds May God continue to bless them and hold them closely in the palms of his powerful loving arms!

This was written as though the writer was explaining there day to day experiences with the help of

God and hope to bring them through a very difficult time. I could not put it down! It was a blessing to my life! A Hallmark movie could be made from Harold and Cindy Bowles life and accomplishments!

Well written and compelling, this couples' story will keep you engrossed from beginning to end. It is a life-story of their love, courage and faith that never wavers, even in the toughest of times. Truly lives up to the title phrase "Never Give Up HOPE..."

I wanted to thank you for writing this. My story is very similar. It is comforting to know that others have gone through this and made it through

This was one of the most gripping stories I've ever read that portrayed the purest of love between this husband and wife. I cried with them and laughed with them as Cindy relived the journey she and husband, Harold, experienced together after his diagnosis of liver disease and liver transplant. Cindy's way of telling this story is so touchingly down-to-earth and a little bit sweet country. She gives great insight into the depth of her and Harold's faith in our Lord Jesus Christ throughout their ordeal. One thing that stood out to me throughout the book was their ability to pray together from one crisis to another. They kept on keeping on....praying all the way through. This story truly inspired me to examine my prayer life and reaction to crisis in my own life. Thank you for writing this, Cindy Bowles.

Cindy Bowles is a wonderful writer and also captured my attention when I learned she is also a registered nurse, mother, friend and is blessed with other talents needed to minister to friends, family or total strangers. She had opportunities to quit but her faith always came through for her and others. Her husband and other family members drew from the strength she obviously drew from God. If you feel life has given you too many challenges, read this book. If you feel you can't "take it anymore," read this book. You will be glad you did.

Cindy Bowles is a wonderful writer, relating the story of her and husband Harold's long journey coping and finally triumphing over Hepatitis C. Her writing is poignant, funny and very clear. God gave her a talent and she's used it here in the telling of their story. Cindy and Harold both hope to help others going thru what they've been thru. This book is an excellent read, Hep C or not! I loved every word and found it difficult to put down. Cindy, I hope you'll continue writing more books.

What a wonderful book!!!! I loved it. I am nurse, also working with transplant patients (kidney) for 20 years. It was a privilege to read the loving words about what it is like for the families, to receive the transplant. It is a great read for anyone, especially those who may feel like the struggle of life is too hard. The hope and their faith in God for her whole family, really shone brightly thru in her writing.
