Blank Book Billionaire is the creative force behind many different types of blank books or utility books as some people call them. They focus on creating books that help people express themselves or simply keep track of things. The sky is the limit for what you can create with these blank books. Not all the books are blank, of course. There are lined journals, gratitude journals, travel journals, pregnancy journals and many others. Some have prompts while others have sections that are designated for specific information. Our mission is to provide you with every type of

blank book you might need. If they don't have it now, they will soon. Journaling is their passion and hope to inspire people to make it a part of their daily life. Essentially journaling to them is the act of writing down everything a person wants to remember or reference back to. Whether that is emotions, life events, recipes, pregnancies or your to do list, writing it down is the most powerful way of ensuring it never gets forgotten. What you can do with a blank book is only limited by the amount of imagination you put into it. Make it a diary, a meal planner, a diet journal or just doodle in it. The point is to get one or seven and use them. Make life easier by unleashing the hidden power of a blank book.

I like the inside but was a tad disappointed about the cover....kinda cheapy....it was a gift....but the recipient liked it alot.

I got this as a gift and the cover is absolutely terrible quality in terms of pixels. I can't imagine gifting it to someone.

This book is so cute, helps me stay very organized. Not very big, but perfect for the beginner chef. It arrived right on time, very happy.

Nice book but not what I was looking for, it is a soft cover and the inside has ingredient and direction lists. It was hard without a picture so I thought it would've blank

Perfect as described!

I love this to write down all my recipes that I find and recreate from pintrist or the ones passed down from family. Convenient for all recipes to be in a book vs little note cards that get lost

It looks just like the picture. I like it, it will serve it's purpose for exactly what I wanted.

Love this journal! Its perfect for me! It's not completely blank, but it does have fill in spots, which are blank.
