Customer Reviews

A lot of information and pictures. Gave to 8 1/2 yr old grandson who loves information about things.

Arrived just fine -- it was a nice gift for a family member who loves nature.

My nephew (9) LIVED it.. smart little kid, interested in fish and creatures. My sister commented on the beautiful pictures.

My son loves this book and is only 4 years old. Pages colorful and bright. Lots of great information and fish to read about. Great purchase.

My six year old recently became addicted to fishing. Bought this book for him so he could learn about all the fish. He absolutely loves this book. The illustrations are beautiful and the book is very informational.

My husband had me researching individual fish species online for hours. I came across this book and decided to order it. It was shipped very quickly and he LOVES it. He is not a reader, but he

loves this book and picks it up off the coffee table daily. We live on the Gulf coast and enjoy saltwater and freshwater fishing. Will be ordering the saltwater addition for his birthday. Great gift for a man that loves to fish... he can get his "fix" even on rainy days =).

This is a great book. Full of colored photos.

Great pictures. Love it.
