Customer Reviews

This is a well composed book of easy to learn melodies and the on-line audio tool makes it easy for my students to learn at thier own pace. I highly recommend this for new and intermediate guitar students.

I took a guitar class in school and needed this book. It wasn't any cheaper here than the book store at school but I did get free two day shipping thanks to prime which beats standing in those book store lines.As for the book itself. Not a bad beginner guitar book. Shows the basic chords and helps learn to read music. There are better in my opinion though.

Great book. Makes practicing much more njoyable than other books

Great book and was received in a timely manner, thank you.

super!!!!

I found this book to be extremely helpful. It shows you how to play each note on the guitar so if you know how to read music notes you can easily learn where that note is on the guitar. It also has various exercises for you to practice. Once you master the book, you can move on to playing more difficult pieces.
